What's Exciting About This Course

First, Welcome! Economics is inherently concerned with everyday behavior and phenomena. It is an elegant, exciting and infinitely applicable science to everyday life. As a teacher, I strive to challenge you to apply concepts you have learned to real world problems and evaluate various opposing points of view. I want to create an environment where students can explore concepts as they actively participate in their own learning. My goal is for you to be physically doing something more than half of the class time we meet or while you are online. I believe this is how learning occurs.

My Personal Welcome

As a teacher, one of my responsibilities is to help you find the best way to learn new material. I believe in a student centered approach. Where everything you need is readily available; however I also understand you have multiple demands on your time. Therefore, if you ever feel the class is overwhelming or you do not understand something please reach out to me immediately. You do not need to wait until you score a low grade, let's work on this together! We have an easy fun to read book with videos included and multiple practice problems found at the end of the chapter. There are tons of resources, let's find out what works best for you. If something isn't working then we can switch it up. However, let me also encourage you to be a part of this. This is your education, and you have a part to play -so play it! Again, welcome to the class and please read through the syllabus and post any questions to the discussion board.

Prerequisites and/or Co-Requisites

ECON 2301 requires college-level math, reading and writing skills. Research indicates that you are most likely to succeed if you have already taken and passed college math and English. The minimum requirements for enrollment in ECON 2301 include placement into college level reading/writing & developmental mathematics (0314 or higher); or placing into developmental mathematics (0314 or higher) with INRW 0300/0420 (or ESOL 0370/0360) as a co-requisite. Please carefully read and consider the repeater policy in the [HCCS Student Handbook](#).

Associate of Arts in Multidisciplinary Studies - Major in Economics

Students can now **major in Economics** by taking the following classes within an Associate of Arts in Multidisciplinary Studies:

ECON 2301, ECON 2302, MATH 2313 and BUSI 2305 or MATH 1342.

More information available on the [Economics Program Page](#) at

<https://learning.hccs.edu/programs/economics/new-major-in-economics-with-an-associate-of-arts-in-multidisciplinary-studies>

Canvas Learning Management System

This section of ECON 2301 will use [Canvas \(https://eagleonline.hccs.edu\)](https://eagleonline.hccs.edu) to supplement in-class assignments, exams, and activities.

HCCS Open Lab locations may be used to access the Internet and Canvas. **USE FIREFOX OR CHROME AS THE INTERNET BROWSER.**

For online classes, all students are required to complete an online orientation. Students are expected to log in several times a week, check announcements and emails and complete assigned work.

The "Total" column of the gradebook available in Canvas may not represent an accurate calculation of your final grade in the course as the Total is calculated based only on the work that has been completed and graded, always refer to the grading formula in the syllabus for maximum accuracy (see below.)

Total: 90.2%

Assignments are weighted by group:

Academic Integrity

Violation of Academic Scholastic Dishonesty and Grievance

Possible punishments for academic dishonesty may include a grade of "0" or "F" on the particular assignment, and/or failure in the course, and/or referral to the Dean of Student Services for further disciplinary action.

Academic dishonesty includes but is not limited to cheating, plagiarism and colluding. See the link below for details.

Attendance Procedures

If a student does not attend class by the Official Day of Record, they will be dropped automatically for non attendance.
For online students, participation (as defined by your instructor) is necessary to show attendance.

Class attendance is monitored daily. Although it is your responsibility to drop a course, the instructor has the authority to drop students for excessive absences. You may be dropped from a course after accumulating absences in excess of 12.5 percent of the total hours of instruction (lecture and lab). For example: For a 3 credit-hour lecture class meeting 3 hours per week (48 hours of instruction), you can be dropped after 6 hours of absence. Administrative drops are at the discretion of the instructor.

Failure to withdraw officially can result in a grade of "F" (or "Fx" if you stop attending classes or logging in and completing assigned work for online classes) in the course.

If a student is dropped for non-attendance in the first 2 weeks of the semester, your instructor _____ may reinstate the student; _____ will not reinstate the student.
