EXPERIENCE

Houston Community College System

Vocational Nursing Professor, 1980-2010 (retired May 11,2010)

Since 1980 I have worked part-time in various departments of the Health Careers Division as an instructor. I served as a part-time instructor of Nurse Aide, Licensed Vocational Nursing, Certified Medical Assistance, and Medical Terminology.

I teach and supervise the upper level clinical component of the Licensed Vocational Nurse Program. My lecture responsibilities include teaching various courses of Med-Surg Nursing and Psycho-Social Nursing.

Texas Department of Human Resources

Regional Nurse, 1983-1987

Responsible for prior approval and utilization review of Primary Home Care Services, evaluate and screen cases for emergency prior approval.

Conducts evaluation visits to assess quality of care, investigate complaints and performs special assignments.

Serves as medical consultant to CCAD program and assists PHC agencies with resolution of procedure and billing problems.

Assists with developing new program's policy, procedure, and evaluation.

EXPERIENCE

Provides weekly and monthly statistics reports of work productivity and supervise staff of the unit when the supervisor is not present.

Visiting Nurse Association

Primary Home Care Supervisor, RN – 1981-1983

Position involved counseling, teaching, and evaluating those employees hired to perform home health care to handicapped, disabled, and elderly clients who qualify for the Primary Care program.

Golden Age Manor Nursing Home

Head Nurse, 1980-1981

Worked as a Head Nurse of the Skilled Unit. Position involved assigning licensed and unlicensed personnel to their duties and making sure that all the patients were provided the most adequate care. Responsibilities included revising the curriculum in-service related to the care of the elderly.

City of Houston Nursing Division

Public Health Nurse III, 1975-1980

This position qualifies one for a charge or supervisory position. I was a member of the tuberculosis field team. I was responsible for teaching preventive health care to 60-70 tuberculosis patients, their families, friends, and often co-workers. Position also included making various home visits. I was also in charge of the Chest Clinic. Occasionally I taught in-services to new employees.

Ben Taub General Hospital

Charge Nurse, RN, 1973-1975

Evening shift supervisor on the medical floor of this large county hospital whose physical properties and branches makes it one of the largest in Houston. Duties included assigning personnel to their duties and making sure patients received the most adequate care possible. I also evaluated jail ward patients for care, scheduled patients for testing, and made sure that they were prepped for surgery.
