Course Overview

Course Description

ARTS 1301 (Art Appreciation) is a general introduction to the visual arts designed to create an appreciation of the vocabulary, media, techniques, and purposes of the creative process. Students will critically interpret and evaluate works of art within formal, cultural, and historical contexts (ACGM).

This introduction to the visual arts is a global investigation of artistic styles, methods of artistic production and media. Various works will be analyzed and defined in relation to the formal elements and the principles of design. Universal themes are studied within their historical, political, economic, theological, sociological, conceptual, and ethnic contexts. Students will also develop critical thinking and observational skills through the creation of hands-on art projects.

Requisites

Must be placed into college-level reading or into college-level writing. Please carefully read and consider the repeater policy in the [HCCS Student Handbook](#).

🎯 Core Curriculum Objectives (CCOs)

ARTS 1301 satisfies the creative arts requirement in the HCCS core curriculum. The HCCS Visual Art Program Committee has specified that the course address the following core objectives:

Critical Thinking: [HCC: to include creative thinking, innovation, inquiry and analysis, synthesis of information]

Art Appreciation is an investigation and analysis of the styles and modes of artistic production from prehistoric times to our own. Through the study of artistic media, universal themes are explored, and students will develop an appreciation for the creative process as one that represents an evolving synthesis of cultural, personal, and technological influences. Assessment of critical thinking in course work will count for no less than 10% of the final grade.

Communication Skills: [HCC: to include effective development, interpretation and expression of ideas through written, oral, and visual communication]

Art Appreciation students will learn to interpret the language of visual communication through the study of selected artworks and creation of their own hands-on art project. Students will demonstrate effective writing skills as they fulfill instructor specific writing assignments. In addition, students will develop verbal communication skills as they participate in discussions, critiques and presentations throughout the semester. Assessment of verbal and written communication in course work will count for no less than 10% of the final grade and may be combined with other core assignments.

Teamwork: [HCC: to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal]

In Art Appreciation courses we use discussions, critiques, group assignments and hands-on art projects to analyze artistic production within various cultures and time periods. This exploration of culture through art allows students to connect with a variety of viewpoints and then exchange viewpoints with others. Students will demonstrate their ability to work effectively with others in class as they safely and responsibly manage shared media, tools, equipment and clean-up duties, as applicable. Each semester students will participate in at least one collaborative assignment designed to expand their experience in developing skills essential to working effectively with others to support a shared purpose or goal. Assessment of teamwork activities and assignments will count for no less than 10% of the final grade and may be combined with other core assignments.

Social Responsibility: [HCC: to include intercultural competency, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities]

By its very nature Art Appreciation is intercultural. As a subject it explores various historical, political, economic, theological, sociological, and ethnic contexts. Using this framework, students consider the community's responsibility in such issues as art destruction/defacement and restoration, art acquisition and public display, public funding of art and censorship. Students observe current events and how they influence or change art history, as new discoveries may change our perception about art. Students make

use of the local art community (including museums, galleries, etc.) to augment their knowledge of and participation in their community. Assessment of social responsibility activities and assignments will count for no less than 10% of the final grade and may be combined with other core assignments.
