SCANS and/or Core Curriculum Competencies	1. Resources —An ability to identify, organize, and allocate time, money, materials, space, and people. Much of what you do in the classroom can help students develop competency with resources. Emphasize planning skills in relation to preparing, working, and completing assignments.
	 Interpersonal—Skills to participate as a member of a team, teach others, serve customers, exercise leadership, negotiate, and work with others possessing diverse backgrounds. Cooperative/collaborative learning activities are an effective way to teach interpersonal skills. In discussions after group activities, emphasize interpersonal lessons and challenges of the activities.
	 Information—An ability to acquire, organize, evaluate, interpret, and communicate information along with using computers to process information. Competency with information is basic to any classroom. Emphasize those efforts to master information skills prepare students for future employment. Systems—An understanding of social, organizational, and technological systems; an ability to monitor and correct performance; a competence in the design and improvement of systems. Look for opportunities for students to use critical thinking skills to identify and analyze systems in their school, community, nation, and world. Technology—The knowledge and skill to select equipment and tools, apply technology to specific tasks, and maintain and troubleshoot software
	and hardware. Although there are many forms of technology that can be used in your class, computers create real interest and opportunities for your students. Encourage your students to make computers an important part of their education, whether the computers are used in self-paced learning or in group projects.
	The following skills will be developed in the Workforce Development with Critical Thinking course: Using Resources: Identify—Plan—Manage Developing Interpersonal Skills: Collaborate—Negotiate—Lead

Developing Interpersonal Skills: Collaborate—Negotiate—Lead

□ Applying Technology: Select—Apply—Enhance

□ Understanding Systems: Connect—Support—Improve

□ Acquiring Information: Evaluate—Communicate—Apply

The three SCANS foundation skills are the following:

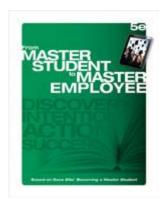

Basic Skills—Reading, writing, mathematics, listening, and speaking. classroom activities can develop and reinforce all these basic skills. Teaching these skills in the classroom can provide cross-curricular opportunities.

Thinking Skills—Creative thinking, decision-making, and problem solving, seeing things in the mind's eye, knowing how to learn, and reasoning. During

	their careers, students will need this foundation to adapt to a rapidly changing society. Helping students to think critically becomes very important so that they may adjust to change. Seek opportunities for students to stretch their minds, find new answers, ask hard questions, and lay foundations for lifelong learning. Personal Qualities —Responsibility, self-esteem, sociability, self- management, and integrity. Throughout their lives, your students will need to get along with others: with classmates, friends and family, customers, and coworkers. Look for chances to reinforce good personal qualities. And remember the power of teaching by example.

EGLS3 – Evaluation for Greater Learning Student Survey System	At Houston Community College, professors believe that thoughtful student feedback is necessary to improve teaching and learning. During a designated time, you will be asked to answer a short online survey of research-based questions related to instruction. The anonymous results of the survey will be made available to your professors and division chairs for continual improvement of instruction. Look for the survey as part of the Houston Community College Student System online near the end of the term.
HCC Policy Statement:	
Access Student Services Policies on their Web site:	http://www.hccs.edu/district/about-us/policies/d-student-services/
Attendance Policy:	Although it is your responsibility to drop a course for nonattendance, the instructor has the authority to drop you for excessive absences. You may be dropped from a course after accumulating absences in excess of 12.5 percent of the total hours of instruction (lecture and lab) For a 3 credit-hour lecture class meeting 3 hours per week (48 hours of instruction), you can be dropped after 6 hours of absence. The 6 hours includes accumulated minutes for arriving late to class and leaving class early.
Distance Education Policies:	
Access DE Policies on Their Website:	All students are responsible for reading and understanding the <i>DE Student Handbook</i> , which contains policies, information about conduct, and other important information. For the <i>DE Student Handbook</i> click on the link below or go to the DE page on the HCC website.
	The <i>Distance Education Student Handbook</i> contains policies and procedures unique to the DE student. Students should have reviewed the handbook as part of the mandatory orientation. It is the student's responsibility to be familiar with the handbook's contents. The handbook

	contains valuable information, answers, and resources such as DE contacts policies and procedures (how to drop, attendance requirements, etc.), student services (ADA, financial aid, degree planning, etc.), course information, testing procedures, technical support, and academic calendars. Refer to the <i>DE Student Handbook</i> by visiting this link: http://de.hccs.edu/media/houston-community-college/distance- education/student-services/2013-CDEStudentHandbook-%28Revised8-1- 2013%29.pdf
Advising:	A senior advisor is connected to this class section and will meet with the class within the first two weeks of instruction. The senior advisor will review the advising syllabus and the ways in which you can communicate with him/her. Students are required to meet with their senior advisor at least twice within the semester. Participation in these advising sessions is required and will be a part of the grade in this success class.
