What's Exciting About This Course

This introduction to the visual arts is a global investigation of artistic styles, methods of artistic production and media. Various works will be analyzed and defined in relation to the formal elements and the principles of design. Universal themes are studied within their historical, political, economic, theological, sociological, conceptual, and ethnic contexts. Students will also develop critical thinking and observational skills through the creation of hands-on art projects.

Course Overview

ARTS 1301 is a general introduction to the visual arts designed to create an appreciation of the vocabulary, media, techniques, and purposes of the creative process. Students will critically interpret and evaluate works of art within formal, cultural, and historical contexts (ACGM).

Core Curriculum Objectives (CCOs)

ARTS 1301 satisfies the creative arts requirement in the HCCS core curriculum. The HCCS Visual Art Program Committee has specified that the course address the following core objectives:

Critical Thinking: [HCC: to include creative thinking, innovation, inquiry and analysis, synthesis of information]

Art Appreciation is an investigation and analysis of the styles and modes of artistic production from prehistoric times to our own. Through the study of artistic media, universal themes are explored, and students will develop an appreciation for the creative process as one that represents an evolving synthesis of cultural, personal, and technological influences. Assessment of critical thinking in course work will count for no less than 10% of the final grade.

Communication Skills: [HCC: to include effective development, interpretation and expression of ideas through written, oral, and visual communication]

Art Appreciation students will learn to interpret the language of visual communication through the study of selected artworks and creation of their own hands-on art project. Students will demonstrate effective writing skills as they fulfill instructor specific writing assignments. In addition, students will develop verbal communication skills as they participate in discussions, critiques and presentations throughout the semester. Assessment of verbal and written communication in course work will count for no less than 10% of the final grade and may be combined with other core assignments.

Teamwork: [HCC: to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal]

In Art Appreciation courses we use discussions, critiques, group assignments and hands-on art projects to analyze artistic production within various cultures and time periods. This exploration of culture through art allows students to connect with a variety of viewpoints and then exchange viewpoints with others. Students will demonstrate their ability to work effectively with others in class as they safely and responsibly manage shared media, tools, equipment and clean-up duties, as applicable. Each semester students will participate in at least one collaborative assignment designed to expand their experience in developing skills essential to working effectively with others to support a shared purpose or goal. Assessment of teamwork activities and assignments will count for no less than 10% of the final grade and may be combined with other core assignments.

Social Responsibility: [HCC: to include intercultural competency, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities]

By its very nature Art Appreciation is intercultural. As a subject it explores various historical, political, economic, theological, sociological, and ethnic contexts. Using this framework, students consider the community's responsibility in such issues as art destruction/defacement and restoration, art acquisition and public display, public funding of

art and censorship. Students observe current events and how they influence or change art history, as new discoveries may change our perception about art. Students make use of the local art community (including museums, galleries, etc.) to augment their knowledge of and participation in their community. Assessment of social responsibility activities and assignments will count for no less than 10% of the final grade and may be combined with other core assignments.

1. Apply art terminology as it specifically relates to works of art.
2. Demonstrate knowledge of art elements and principles of design.
3. Differentiate between the processes and materials used in the production of various works of art.
4. Critically interpret and evaluate works of art.
5. Demonstrate an understanding of the impact of arts on culture.
6. Successfully collaborate on a curatorial **or** artistic project.

Learning Objectives

Learning Objectives for each CSLO can be found at <https://learning.hccs.edu/programs/art>

Student Success

Expect to spend at least 6-8 hours logged into the class each week examining the course content.

Additional time may be required to complete the projects for each module. This is a project-based course. The assignments are designed to teach you about art through your own research. You will demonstrate what you have learned through completing the modules each week. For that reason, I take plagiarism very seriously - submit your own, original ideas, in your own words or you will fail the projects, and possibly the whole course. I can't tell what you've learned if you use someone else's work.

TIP: never copy and paste information from online directly into your document. Take short, bullet point, notes.

For example: researching Paris, if I copy, I get:

"Paris is the capital and most populous city of France, with an area of 105 square kilometres (41 square miles) and a population of 2,206,488 million." (Wikipedia)

If I take notes, I get:

Paris: France's capital
 Most people in France
 41 sq miles
 2.2 million population
 source: Wikipedia

Now I must use my imagination to compose these notes into a paragraph. It's hard to imagine a new sentence or paragraph when you're looking at one that already exists, so don't try.

Successful completion of this course requires a combination of the following:

- Reading all materials in each module and the textbook, if you chose to purchase it.
- Regularly logging in to class (at least once every 3 days, probably more)
- Completing assignments ON TIME (check the course calendar and my Announcements regularly)
- Participating in all required online activities
- There is no short cut for success in this course; it requires reading (and probably re-reading) and studying the material and performing your own research using the course objectives as your guide.

IMPORTANT***This online class is project based. There is no way to do well in it without completing the projects, and each project will take time to finish. Do not wait until the due dates to begin working or you will not do well on the projects.

THIS IS A VERY FAST, 8-WEEK COURSE. It is a full semester of content crammed into half the normal time. You will need to work more and harder than you might in a longer course, and you need to think about whether you have the time in your schedule to do that.

Instructor and Student Responsibilities

As your Instructor, it is my responsibility to:

- Provide the grading scale and detailed grading formula explaining how student grades are to be derived
- Facilitate an effective learning environment through lectures, hands-on art projects, activities, discussions and critiques
- Provide a clear description of projects or assignments
- Inform students of policies such as attendance, withdrawal, tardiness and make up work
- Provide the course outline and class calendar which will include a description of any special projects or assignments
- Arrange group work

As a student, it is your responsibility to:

- Participate in class, respect deadlines, and be prepared for each class meeting
- Use time wisely to focus on assignments, projects and exams
- Keep and organize copies of all materials, including the syllabus, articles, links and online resources
- Respect other class members
- Clean up thoroughly after each work session, when applicable
- Be prepared for critique: have complete assignments ready on time and be prepared to participate in the verbal critique process
- Be aware of and comply with academic honesty policies in the [HCCS Student Handbook](#)

Assignments, Exams, and Activities

Written Assignment

Since this is a project-based course, the class will be completed through written assignments. You will complete at least 2000 words in a combination of written assignments over the course of the semester. Your grammar and spelling are important, so get help from an HCC tutor if you need it.

Exams

There are no exams for this course.

There are optional Extra Credit reflection "quizzes" at the end of each module (except the last one). Extra credit will only be graded if your final grade is within one percent (1%) of the next higher letter grade.

Syllabus Modifications

The instructor reserves the right to modify the syllabus at any time during the semester and will promptly notify students in writing, typically by e-mail, of any such changes.

Instructor's Practices and Procedures

Missed Assignments

- Due dates are generous but firm.
- Assignments submitted up to 1 hour past the deadline will automatically lose 10% of their value.
- Assignments submitted up to 2 hours past the deadline will automatically lose 25% of their value.

- NO work will be accepted more than 2 hours past the deadline.

You have ample time, working at your own pace, to complete each assignment. DO NOT WAIT UNTIL THE LAST MINUTE to begin. Something will go wrong, and you will not be able to submit your work late.

Academic Integrity

You are expected to be familiar with the College's Policy on Academic Honesty, found in the catalog and student handbook. Penalties and/or disciplinary proceedings may be initiated by College System officials against a student accused of scholastic dishonesty.

"Scholastic dishonesty" includes, but is not limited to, cheating on a test, plagiarism, and collusion.

Cheating on a test includes:

- Copying from another student's test paper;
- Using materials during a test that are not authorized by the person giving the test;
- Collaborating with another student during a test without authority;
- Knowingly using, buying, selling, stealing, transporting, or soliciting in whole or part the contents of a test that has not been administered;
- Bribing another person to obtain a test that is to be administered.

Plagiarism means the appropriation of another's work and the unacknowledged incorporation of that work in one's own written work offered for credit.

Collusion means the unauthorized collaboration with another person in preparing written work offered for credit.

Violations: Possible punishments for academic dishonesty may include a grade of "0" or "F" on the assignment, failure in the course, and/or recommendation for probation or dismissal from the College System. A recommendation for suspension or expulsion will be referred to the College Dean of Student Development for disciplinary disposition.

Here's the link to the HCC information about academic integrity (Scholastic Dishonesty and Violation of Academic Scholastic Dishonesty and Grievance):

<http://www.hccs.edu/about-hcc/procedures/student-rights-policies--procedures/student-procedures/>

Attendance Procedures

Log in at least once every 3 days, and more often if this is your first fully remote online class.

Although it is your responsibility to drop a course for non-attendance, the instructor has the authority to drop you for excessive lengths of time without attendance.

A 3-day sequence without logging in to check the Discussions and Announcements is considered excessive and can result in being withdrawn from the course.

Student Conduct

Students are responsible for conducting themselves with honor and integrity in fulfilling course requirements. This includes maintaining a professional demeanor while communicating and working with both your fellow students and instructor on all assignments and discussions. Failure to maintain a professional demeanor could result in failing the related assignment.

Art Program Requirements:

By the end of the semester the student who passes with a final grade of "C" or above will have demonstrated the ability to:

- Complete and comprehend the objectives of all graded assignments
- Arrive at class promptly and with the required materials for that day's session
- Participate in the shared responsibilities for clean-up when applicable
- Practice safe work habits when applicable
- Be prepared for and participate in class critiques, small group or class discussions
- Complete assignments through inquiry, analysis, evaluation and synthesis of information
