ARTS 2356 | Photography I
Spring 2017

Photography Presentation:

You will give a presentation in class on a photographer/artist who uses photography as a predominant element in their artistic creation. Purpose: To become familiar with some of the famous photographers throughout time, and how they contributed to the history of photography. By researching a particular person you will expand your understanding of the art form, and lineage. Choose a photographer you are truly interested in -- you will 'mimic' their work later on in the semester.

On your assigned date you will give an oral and visual presentation that should be between 5 and 10 minutes. You are required to create a PowerPoint or Keynote presentation with at least 5 visuals.

Requirements:

- Be as descriptive as you can about the images and make connections to their meaning.
- Address the artist's biography and history if relevant.
- Explain your image choices and how they represent the work of the artists you have chosen.
- Use at least two formal elements of design and principles of art to explain the work of the photographer you have chosen. Examine the role of the elements in the work of your artist.
