This course is designed to be repeated multiple times to improve student proficiency. The student will identify the components of a computer system and demonstrate basic proficiency in commonly used applications. Hands-on overview of computer applications, which run under windows environment on PC compatible platform, including current terminology and technology. Introduction to computer software applications and procedures. (Formerly CSCI 1338, WORD 1341, TECC 1347

)

My Personal Welcome

As an instructor, I want my students to be successful. I feel that it is my responsibility to provide students with knowledge concerning office technology, modeling good teaching strategies, and organizing and monitoring the field experience that allows students to connect the information that students learn in this course to the real world of education. As a student wanting to learn about office technology, it is student's responsibility to read the textbook,

submit assignments on the due dates, study for the exams, participate in activities, and attend class. As you read and wrestle with new ideas and facts that may challenge you, I am available to support you. The fastest way to reach me is by email at lisa.eason@hccs.edu. The best way to really discuss issues is in person and I'm available during posted office hours to tackle the questions. My goal is for you to walk out of the course with a better understanding of keyboarding. So please visit me or contact me by email whenever you have a question.

Prerequisites

POFT 1329 is a prerequisite for **POFT 2301**.

POFT 2301 requires college-level reading and writing skills. Please carefully read and consider the repeater policy in the [HCCS Student Handbook](#).

Canvas Learning Management System

This section of **POFT 2301** will use [Eagle Online Canvas \(https://eagleonline.hccs.edu\)](https://eagleonline.hccs.edu) for class assignments, exams, and other activities. << **Insert here more specific information about how you expect students to use Canvas. Include information about scoring rubrics for assignments, samples of class assignments, and other information to assist students in the course.** >>

HCCS Open Lab locations may be used to access the Internet and Canvas. It is recommended that you **USE [FIREFOX](#) OR [CHROME](#) AS YOUR BROWSER AS THE INTERNET BROWSER.**

HCC Online Information and Policies

Tutoring

HCC provides free, confidential, and convenient academic support, including writing critiques, to HCC students in an online environment and on campus. Tutoring is provided by HCC personnel in order to ensure that it is contextual and appropriate. Visit the [HCC Tutoring Services](#) website for services provided.

Libraries

The HCC Library System consists of 9 libraries and 6 Electronic Resource Centers (ERCs) that are inviting places to study and collaborate on projects. Librarians are available both at the libraries and online to show you how to locate and use the resources you need. The libraries maintain a large selection of electronic resources as well as collections of books, magazines, newspapers, and audiovisual materials. The portal to all libraries' resources and services is the HCCS library web page at <http://library.hccs.edu>.

Supplementary Instruction

Supplemental Instruction is an academic enrichment and support program that uses peer-assisted study sessions to improve student retention and success in historically difficult courses. Peer Support is provided by students who have already succeeded in completion of the specified course, and who earned a grade of A or B. Find details at <http://www.hccs.edu/resources-for/current-students/supplemental-instruction/>.

Course Overview

POFT 2301 is a continuation of keyboarding skills in document formatting, speed, and accuracy. Emphasis on proofreading, editing, following instructions, and keying documents from various copies

Secretary’s Commission on Achieving Necessary Skills (SCANS)

The Secretary’s Commission on Achieving Necessary Skills (SCANS) from the U.S. Department of Labor was asked to examine the demands of the workplace and whether our young people are capable of meeting those demands. Specifically, the Commission was directed to advise the Secretary on the level of skills required to enter employment. In carrying out this charge, the Commission was asked to do the following:

- Define the skills needed for employment,
- Propose acceptable levels of proficiency,
- Suggest effective ways to assess proficiency, and
- Develop a dissemination strategy for the nation’s schools, businesses, and homes.

SCANS research verifies that what we call *workplace know-how* defines effective job performance today. This know-how has two elements: *competencies* and a *foundation*. This report identifies five competencies and a three-part foundation of skills and personal qualities that lie at the heart of job performance. These eight requirements are essential preparation for all students, whether they go directly to work or plan further education. Thus, the competencies and the foundation should be taught and understood in an integrated fashion that reflects the workplace *contexts* in which they are applied.

The five SCANS workplace competencies identified by the Commission are the following:

1. **Resources** – An ability to identify, organize, and allocate time, money, materials, space, and people. Much of what you do in the classroom can help students develop competency with resources. Emphasize planning skills in relation to preparing, working, and completing assignments.
2. **Interpersonal**—Skills to participate as a member of a team, teach others, serve customers, exercise leadership, negotiate, and work with others possessing diverse backgrounds. Cooperative/collaborative learning activities are an effective way to teach interpersonal skills. In discussions after group activities, emphasize interpersonal lessons and challenges of the activities.
3. **Information**—An ability to acquire, organize, evaluate, interpret, and communicate information along with using computers to process information. Competency with information is basic to any classroom. Emphasize those efforts to master information skills prepare students for future employment.
4. **Systems** – An understanding of social, organizational, and technological systems; an ability to monitor and correct performance; a competence in the design and improvement of systems. Look for opportunities for students to use critical thinking skills to identify and analyze systems in their school, community, nation, and world.
5. **Technology** – The knowledge and skill to select equipment and tools, apply technology to specific tasks, and maintain and troubleshoot software and hardware. Although there are many forms of technology that can be used in your class, computers create real interest and opportunities for your students. Encourage your students to make computers an important part of their education, whether the computers are used in self-paced learning or in group projects.

The following skills will be developed in **Intermediate Keyboarding**:

- Using Resources: Identify—Plan—Manage
- Developing Interpersonal Skills: Collaborate—Negotiate—Lead
- Applying Technology: Select—Apply—Enhance
- Understanding Systems: Connect—Support—Improve
- Acquiring Information: Evaluate—Communicate—Apply

The three SCANS foundation skills identified by the Commission are the following:

Basic Skills - Reading, writing, mathematics, listening, and speaking. Classroom activities can develop and reinforce all these basic skills. Teaching these skills in the classroom can provide cross-curricular opportunities.

Thinking Skills - Creative thinking, decision-making, and problem solving, seeing things in the mind's eye, knowing how to learn, and reasoning. During their careers, students will need this foundation to adapt to a rapidly changing society. Helping students to think critically becomes very important so that they may adjust to change. Seek opportunities for students to stretch their minds, find new answers, ask hard questions, and lay foundations for lifelong learning.

Personal Qualities - Responsibility, self-esteem, sociability, self-management, and integrity. Throughout their lives, your students will need to get along with others: with classmates, friends and family, customers, and coworkers. Look for chances to reinforce good personal qualities. And remember the power of teaching by example.

Program Student Learning Outcomes (PSLOs)

1. The student will be able to read, listen, speak, and write proficiently.
2. The student will be able to apply keyboarding and document processing skills to specific office applications.
3. The student will be able to use appropriate tools and processes such as records management, accounting fundamentals, and software applications in word processing, spreadsheet, database, and presentations to manage information.
4. The student will be able to apply organizational skills to the management of projects, daily, schedules, multiple tasks, and unexpected interruptions.

Course Student Learning Outcomes (CSLOs)

Upon completion of **POFT 2301**, the student will be able to:

1. Demonstrate proficient keyboarding techniques.
2. Apply mailability standards to business documents using word processing software.
3. Produce formatted letters, memoranda, reports, tables, and administrative documents with speed and accuracy using proper keying techniques.

Learning Objectives

- 1.1 Develop keyboarding speed and accuracy.

Student Success

Business Technology is determined to prepare students with the knowledge and skills needed to succeed in today's dynamic work environment. Students in **Intermediate Keyboarding** must be able to budget their time and perform class-related activities as assigned on a weekly basis. Students also perform various general activities related to **Intermediate Keyboarding**.

Expect to spend at least twice as many hours per week outside of class as you do in class studying the course content. Successful completion of this course requires a combination of the following:

- Reading the textbook
- Attending class in person and/or online
- Completing assignments
- Participating in class activities

There is no short cut for success in this course; it requires reading (and probably re-reading) and studying the material using the course objectives as your guide.

Instructor and Student Responsibilities

As your Instructor, it is my responsibility to:

- Provide the grading scale and detailed grading formula explaining how student grades are to be derived
- Facilitate an effective learning environment through learner-centered instructional techniques
- Provide a description of any special projects or assignments
- Inform students of policies such as attendance, withdrawal, tardiness, and making up assignments
- Provide the course outline and class calendar that will include a description of any special projects or assignments
- Arrange to meet with individual students before and after class as required

As a student, it is your responsibility to:

- Attend class in person and/or online
- Participate actively by reviewing course material, interacting with classmates, and responding promptly in your communication with me
- Read and comprehend the textbook
- Complete the required assignments and exams
- Ask for help when there is a question or problem
- Keep copies of all paperwork, including this syllabus, handouts, and all assignments
- Attain a raw score of at least 50% on the departmental final exam
- Be aware of and comply with academic honesty policies in the [HCCS Student Handbook](#)

Assignments, Exams, and Activities

Written Assignment

Assignments have been developed that will enhance student learning. To better understand a topic, students will be given assignments on key information that you will need to remember for mastery skills related to this course. Assignments will consist of Module exercises, timed writings, discussions, and assessments.

Module Exercises

This course consists of 11 modules. Each module consists of several typing exercises. The total number of exercises per each module will be averaged to calculate your module grade.

Module Exercises makes up 20% of your grade.

Timed Writings

The timed writing exercises are designed to test your typing speed, accuracy, and formation of general office documents covered in each module. There will be 15-20 timed writing exercises throughout the course.

Timed Writings makes up 15% of your grade.

Assessments

There are 4 assessment exercises. These assessments are designed to assess your knowledge of the materials you have reviewed and learned for each module.

Assessments makes up 10% of your grade.

Discussions

There are 4 peer discussion questions related to the topic. You are required to answer the discussion question based on your past experience, and the learning materials. You are also required to respond to two other classmates post.

Discussions make up 10 % of your grade.

Exams

There will be an assigned test based on the skills and knowledge you have learned throughout the module. The exams will be completed in Cengage and uploaded into CANVAS for grading.

Module Tests makes up 20% of your grade.

In-Class Activities

This is an online class. There are no in-class activities assigned to this class.

Final Exam

The Final Exam will consist of two parts. Part One will consist of timed writing exercises and the other will consist of a comprehensive departmental final exam consisting of 50 multiple-choice and fill-in-the-blank questions. The comprehensive exam will be taken in Canvas.

There is a three-day window to take the final exam. There will not an opportunity to take a make-up exam.

Final Exam makes up 25% of your grade.

Grading Formula

HCCS Grading System

The Houston Community College grading system will be used to evaluate students' performance in this course.

Grade	Points
A	100- 90
B	89 – 80
C	79 – 70
D	69 – 60
F	59 and below
FX	Failure due to non-attendance
W	Withdrawn
I	Incomplete

Incomplete Policy:

The grade of "I" (Incomplete) is conditional. A student receiving an "I" must arrange with the instructor to complete the course work within six months of the end of the incomplete term. After the deadline, the "I" becomes an "F." Upon completion of the coursework, the grade will be entered as I/grade on the student transcript. All "I"s must be changed to grades prior to graduation. In order to receive a grade of Incomplete ("I"), a student must have completed at least 85% of the work in the course. In all cases, the instructor reserves the right to decline a student's request to receive a grade of Incomplete.

GRADING CRITERIA

The following departmental grading system will be used to evaluate students' performances in this course:

Module Exercises	20%
Assessments	10%
Timed Writings	15%
Module Tests	20%
Final Exam	25%
Discussions	10%
TOTAL	100%

HCC Grading Scale can be found on this site under Academic Information:

Syllabus Modifications

The instructor reserves the right to modify the syllabus at any time during the semester and will promptly notify students in writing, typically by e-mail, of any such changes.

Instructor's Practices and Procedures

Missed Assignments

Assignments have been developed that will enhance your learning. To better understand a topic, you will be given assignments on key information that you will need to remember for your success on reaching your goals.

Late Assignments: Students are expected to adhere to the weekly schedule of assignments printed in the course syllabus. Work submitted later than the due date will be counted if it is submitted by the next class period, but the grade will be lowered by one letter grade (at the discretion of instructor). The only exception is if the student is absent the day that the work is due; in that case, the assignment is due the next class period. If the student has exceeded five absences, no work will be accepted late and the excessive absences will result in the student being dropped. **Points will be deducted for late assignment.**

Academic Integrity

You are expected to be familiar with the College's Policy on Academic Honesty, found in the catalog and student handbook. Students are responsible for conducting themselves with honor and integrity in fulfilling course requirements. Penalties and/or disciplinary proceedings may be initiated by College System officials against a student accused of scholastic dishonesty. "Scholastic dishonesty": includes, but is not limited to, cheating on a test, plagiarism, and collusion.

Cheating on a test includes:

- a Copying from another students' test paper;
- b Using materials not authorized by the person giving the test;
- c Collaborating with another student during a test without authorization;
- d Knowingly using, buying, selling, stealing, transporting, or soliciting in whole or part the contents of a test that has not been administered;
- e Bribing another person to obtain a test that is to be administered

Plagiarism means the appropriation of another's work and the unacknowledged incorporation of that work in one's own written work offered for credit.

Collusion mean the unauthorized collaboration with another person in preparing written work offered for credit. Possible punishments for academic dishonesty may include a grade of 0 or F in the particular assignment, failure in the course, and/or recommendation for probation or dismissal from the College System. (See the Student Handbook).

Academic dishonesty can result in a grade of **F** or **0** for the particular test or assignment involved, dropped, and/or expelled from HCCS. Please refer to the HCCS Distance Education Student Handbook for further information regarding Academic Dishonest

Scholastic Dishonesty will result in a referral to the Dean of Student Services. See the link below for details.

Here's the link to the HCC information about academic integrity (Scholastic Dishonesty and Violation of Academic Scholastic Dishonesty and Grievance):

<http://www.hccs.edu/about-hcc/procedures/student-rights-policies--procedures/student-procedures/>

Attendance Procedures

Attendance is submitting assignments if this is an online class: In house or Hybrid classes, you will be dropped after five (5) absentees (12.5% of class time). Students are withdrawn for lack of submitting assignments, completing quizzes and exams and never attending, and etc.

Student Conduct A student who is being disruptive will be reported to the Police Department, Student Affairs and the Department Chair. This applies to In-Person, Hybrid, and Online classes.

Instructor's Course-Specific Information (

Electronic Devices

As a student active in the learning community of this course, it is student responsibility to be respectful of the learning atmosphere in student classroom. To show respect of student fellow students and instructor, students will turn off student phone and other electronic devices, and will not use these devices in the classroom unless students receive permission from the instructor.

Use of recording devices, including camera phones and tape recorders, is prohibited in classrooms, laboratories, faculty offices, and other locations where instruction, tutoring, or testing occurs. Students with disabilities who need to use a recording device as a reasonable accommodation should contact the Office for Students with Disabilities for information regarding reasonable accommodations.

EGLS³

The EGLS³ ([Evaluation for Greater Learning Student Survey System](#)) will be available for most courses near the end of the term until finals start. This brief survey will give invaluable information to your faculty about their teaching. Results are anonymous and will be available to faculty and division chairs after the end of the term. EGLS³ surveys are only available for the Fall and Spring semesters. -EGLS3 surveys are not offered during the Summer semester due to logistical constraints.
