## West Loop

## **Developmental Mathematics**

Math 0409: Foundations of Mathematics CRN #60449 – Spring 2018 Room 129 C, T- TH 7:30 – 9:20

4 hour lecture course / 64 hours per semester/ 16 weeks

Textbook: Introductory and Intermediate Algebra. Houston Community College Developmental Math Courses

**0409/0312** (Custom Edition). Pearson Learning Solutions: Boston, 2015 ISBN 13: 978-1-323-15682-7.

MyMathLab Course ID: abbasi54278

**Instructor**: Mohammad Abbasi

**Email**: mohammad.abbasi@hccs.edu

**Office Hours:** I will be available after class and before class by appointment

Please send me and email for appointment

"Any student who faces challenges securing their food or housing and believes this may affect their performance in the course is urged to contact the Dean of Students for support. Furthermore, please notify the professor if you are comfortable in doing so."

### **Course Description**

Foundations of Mathematics: Topics include real numbers, basic geometry, polynomials, factoring, linear equations, linear inequalities, set operations, rational expressions, and an introduction to modeling which may include exponential, quadratic and linear models. A departmental final examination must be passed with a score of 60% or more in order to pas s the course. Prerequisite: MATH 0106 or equivalent test score.

### **Prerequisites**

TSIA Reading Score above 341 or GUST 0339 with a grade of C or higher; TSIA ABE level 5 or 6; TSIA Math Score 336 – 347 with Elementary Algebra Score 5 – 15 and Intermediate Algebra Score 0 – 6; Math 0106: Pass with "C" or better

#### Exam

There will be 4 major Test, Homework, and comprehensive departmental final exam. One of the lowest grades in your major test will be drop.

You must take final Exam in order to pass the course

There will be no makeup, since the lowest test grade will be drop.

### Assessment/Make-up and Grading

There are assigned homework problems after every section. It is crucial for you to succeed in this class that you do faithfully your homework every week on MyMathLab.

There will be 4 major Test, Homework and comprehensive departmental final exam. One of the lowest grades in your major test will be drop.

## There will be no makeup, since the lowest test grade will be drop.

## **Final Exam Policy in Developmental Mathematics**

The final letter grade will be determined accordingly:

Students who score less than 60% on the Final Examination will be awarded a course grade of "F."

b. A student whose score is greater than or equal to 60% on the Final Examination will have their grades averaged and awarded a grade based upon the standard 100 point scale.

| AVERAGE                                   | GRADE   |
|---|---------|
| $90\% \le \text{Final Average} \le 100\%$ | A       |
| 80% ≤ Final Average < 90%                 | В       |
| 70% ≤ Final Average < 80%                 | C       |
| Final Average < 70%                       | F       |
| $0\% \le \text{Final Average} \le 70\%$   | IP or F |

**Note:** The grade of **D** is not allowed in developmental math courses. The grade of **IP** can be given only once in a course. The grade of **FX** is given when a student fails due to lack of attendance. A grade of **W** may be given on or before the official withdrawal date but not at the time of final grade submission.

## **Assessments** (Break down of grade calculation by points or percentage – see sample below)

The assessments weights are as follows:

Homework 20%

Exams=55 %,

Final exam=25%.

You benefit for attending class regularly. You earn rewards as follows: Perfect attendance (0 absent and 0 tardy) = 5. The point will add to the final exam grade.

The students receive 5 points as extra credit assign to each test with perfect attendance between two tests and doing test review.

Any student who arrives 15 minutes after the class has begun or leaves before the class is dismissed without any prior approval of the instructor is considered absent.

# **Student Registration Instructions**

PEARSON ALWAYS LEARNING

## To register for Math 0409:

- 1. Go to www.pearsonmylabandmastering.com.
- 2. Under Register, select **Student**.
- 3. Confirm you have the information needed, then select **OK! Register now**.
- 4. Enter your instructor's course <u>ID:abbasi54278</u> and **Continue**.
- 5. Enter your existing Pearson account username and password to Sign In.

You have an account if you have used a Pearson product, for example: MyMathLab, MyITLab, MyPsychLab, MySpanishLab or Mastering, such as MasteringBiology.

- If you don't have an account, select Create and complete the required fields.
  - 6. Select an access option.
- Use the access code that came with your textbook or that you purchased separately from the bookstore.
- Buy access using a credit card or PayPal account.
- If available, get 14 days temporary access. (The link is near the bottom of the screen.)
  - 7. From the confirmation page, select **Go To My Courses**.
  - 8. On the My Courses page, select the course tile Math 0409 to start your work.

## To sign in later:

- 1. Go to www.pearsonmylabandmastering.com.
- 2. Select Sign In.
- 3. Enter your Pearson account username and password, and Sign In.
- 4. Select the course tile Math 0409 to start your work.

## To upgrade temporary access to full access:

- 1. Go to www.pearsonmylabandmastering.com.
- 2. Select Sign In.
- 3. Enter your Pearson account **username** and **password**, and **Sign In**.
- 4. Select **Upgrade access** from the course tile **Math 0409**.
- 5. Enter an access code or purchase access with a credit card or PayPal account.

For a registration overview, go to <a href="https://www.pearsonmylabandmastering.com/students/get-registered">www.pearsonmylabandmastering.com/students/get-registered</a>. Scroll down to **Need a little help?** and select a video.

#### Course Goal:

This course is intended for students who have either never been exposed to algebra or who have been away from the subject for quite some time. Particularly, this course is intended to prepare students for the study of Math 0312 or for a non-Calculus-based College Level Math course, specifically Math 1332 or Math 1333.

#### **Course Student Learning Outcomes (SLO):**

- 1. Identify and apply properties of real numbers, and perform accurate arithmetic operations with numbers in various formats.
- 2. Demonstrate the ability to manipulate/simplify algebraic expressions, & classify/solve algebraic equations with appropriate techniques.
- 3. Demonstrate the use of elementary graphing techniques.
- 4. Apply basic geometric theorems and formulas to rectangles, squares, parallelograms, triangles, parallelograms, triangles and circles.
- 5. Apply "Proportional Reasoning" to solve related problems including ratios, rates, proportion, percent and conversions of units.
- 6. Recognize, examine, and interpret the linear, quadratic, exponential, and/or rational models of equations.

#### Learning objectives

#### Students will:

- 1. add, subtract, multiply and divide real numbers and manipulate certain expressions.
- 2. find the perimeter and area of rectangles, squares, parallelograms, triangles and circles.
- 3. solve problems using scientific notation.
- 4. simplify algebraic expressions.
- 5. solve problems using equations and inequalities.
- 6. factor polynomials using the techniques of the greatest common factor, grouping, difference of two squares and trinomials of the form  $x^2 + bx + c$ .
- 7. multiply and divide, and simplify rational expressions
- 8. plot ordered pairs and graph linear equations.
- 9. graph linear inequalities.
- 10. Find the rate of change of a line & write its equation.
- 11. Model situations with linear, quadratic, or exponential functions.

## HCC Policy Statement - Students with disabilities

HCC strives to make all learning experiences as accessible as possible. If you anticipate or experience academic barriers based on your disability (including mental health, chronic or temporary medical conditions), please meet with a campus Abilities Counselor as soon as possible in order to establish reasonable accommodations. Reasonable accommodations are established through an interactive process between you, your instructor(s) and Ability Services. It is the policy and practice of HCC to create inclusive and accessible learning environments consistent with federal and state law. For more information, please go to <a href="http://www.hccs.edu/district/students/disability-services/">http://www.hccs.edu/district/students/disability-services/</a>

## **Ability Services Contact Information**

| ability Services Contact Information    |              |              |  |  |

### HCC Policy Statement: Title IX:

Houston Community College is committed to cultivating an environment free from inappropriate conduct of a sexual or gender-based nature including sex discrimination, sexual assault, sexual harassment, and sexual violence. Sex discrimination includes all forms of sexual and gender-based misconduct and violates an individual's fundamental rights and personal dignity. Title IX prohibits discrimination on the basis of sex-including pregnancy and parental status-in educational programs and activities. If you require\

e an accommodation due to pregnancy please contact an Abilities Services Counselor. The Director of EEO/Compliance is designated as the Title IX Coordinator and Section 504 Coordinator. All inquiries concerning HCC policies, compliance with applicable laws, statutes, and regulations (such as Title VI, Title IX, and Section 504), and complaints may be directed to:

David Cross
Director EEO/Compliance
Office of Institutional Equity & Diversity
3100 Main

Houston, TX 77266-7517 or Institutional.Equity@hccs.edu

Phone number: 713-718-8271

#### **Campus Carry statement:**

At HCC the safety of our students, staff, and faculty is our first priority. As of August 1, 2017, Houston Community College is subject to the Campus Carry Law (SB11 2015). For more information, visit the HCC Campus Carry web page at <a href="http://www.hccs.edu/district/departments/police/campus-carry/">http://www.hccs.edu/district/departments/police/campus-carry/</a>."

### HCC Policy Statement: Academic Honesty

A student who is academically dishonest is, by definition, not showing that the coursework has been learned, and that student is claiming an advantage not available to other students. The instructor is responsible for measuring each student's individual achievements and also for ensuring that all students compete on a level playing field. Thus, in our system, the instructor has teaching, grading, and enforcement roles. You are expected to be familiar with the University's Policy on Academic Honesty, found in the catalog. What that means is: If you are charged with an offense, pleading ignorance of the rules will not help you. Students are responsible for conducting themselves with honor and integrity in fulfilling course requirements. Penalties and/or disciplinary proceedings may be initiated by College System officials against a student accused of scholastic dishonesty. "Scholastic dishonesty": includes, but is not limited to, cheating on a test, plagiarism, and collusion.

### **Cheating on a test includes:**

- Copying from another students' test paper;
- Using materials not authorized by the person giving the test;
- Collaborating with another student during a test without authorization;
- Knowingly using, buying, selling, stealing, transporting, or soliciting in whole or part the contents of a test not yet administered;
- Bribing another person to obtain a test that is to be administered.

<u>Plagiarism</u> means the appropriation of another's work and the unacknowledged incorporation of that work in one's own written work offered for credit.

<u>Collusion</u> mean the unauthorized collaboration with another person in preparing written work offered for credit. Possible punishments for academic dishonesty may include a grade of 0 or F in the particular assignment, failure in the course, and/or recommendation for probation or dismissal from the College System. (See the Student Handbook)

#### **HCC Policy Statements**

Class Attendance - It is important that you come to class! Attending class regularly is the best way to succeed in this class. Research has shown that the single most important factor in student success is attendance. Simply put, going to class greatly increases your ability to succeed. You are expected to be on time at the beginning of each class period. For complete information regarding Houston Community College's policies on attendance, please refer to the Student Handbook. You are responsible for materials covered during your absences. Class attendance is checked daily. Although it is your responsibility to drop a course for

nonattendance, the instructor has the authority to drop you for excessive absences.

If you are not attending class, you are not learning the information. As the information that is discussed in class is important for your career, students may be dropped from a course after accumulating absences in excess of six (6) hours of instruction. The six hours of class time would include any total classes missed or for excessive tardiness or leaving class early.

You may decide NOT to come to class for whatever reason. As an adult making the decision not to attend, you do not have to notify the instructor prior to missing a class. However, if this happens too many times, you may suddenly find that you have "lost" the class.

Poor attendance records tend to correlate with poor grades. If you miss any class, including the first week, <u>you are responsible for all material missed</u>. It is a good idea to find a friend or a buddy in class who would be willing to share class notes or discussion or be able to hand in your work if you unavoidably miss a class

### **HCC Course Withdrawal Policy**

If you feel that you cannot complete this course, you will need to withdraw from the course prior to the final date of withdrawal. Before, you withdraw from your course; please take the time to meet with the instructor to discuss why you feel it is necessary to do so. The instructor may be able to provide you with suggestions that would enable you to complete the course. Your success is very important. Beginning in fall 2007, the Texas Legislature passed a law limiting first time entering freshmen to no more than **SIX** total course withdrawals **throughout** their educational career in obtaining a certificate and/or degree.

To help students avoid having to drop/withdraw from any class, HCC has instituted an Early Alert process by which your professor *may* "alert" you and HCC counselors that you might fail a class because of excessive absences and/or poor academic performance. It is your responsibility to visit with your professor or a counselor to learn about what, if any, HCC interventions might be available to assist you – online tutoring, child care, financial aid, job placement, etc. – to stay in class and improve your academic performance.

If you plan on withdrawing from your class, you should contact a HCC advisor prior to withdrawal. The withdrawal must be done **PRIOR** to the Last Day to Withdraw to receive a "W" on your transcript. \*\*Final withdrawal deadlines vary each semester and/or depending on class length, please visit the online registration calendars, HCC schedule of classes and catalog, any HCC Registration Office, or any HCC advisor to determine class withdrawal deadlines. If you plan to discuss withdrawal options with an advisor or your professor, then please allow at least a 24-hour response time when communicating via email or telephone. If you do not withdraw before the deadline, you will receive the grade that you are making in the class as your final grade.

#### Repeat Course Fee

The State of Texas encourages students to complete college without having to repeat failed classes. To increase student success, students who repeat the same course more than twice, are required to pay extra tuition. The purpose of this extra tuition fee is to encourage students to pass their courses and to graduate. Effective fall 2006, HCC will charge a higher tuition rate to students registering the third or subsequent time for a course. If you are considering course withdrawal because you are not earning passing grades, confer with your instructor/counselor as early as possible about your study habits, reading and writing homework, test taking skills, attendance, course participation, and opportunities for tutoring or other assistance that might be available.

### Classroom Behavior

#### Misuse of Electronic Devices in the Classroom

The use of electronic devices by students in the classroom is up to the discretion of the instructor. Any use of such devices for purposes other than student learning is strictly prohibited unless authorized as an appropriate ADA accommodation from the ADA Counselor.

## Personal Communication Device Policy:

All personal communication devices (any device with communication capabilities including but not limited to cell phones, blackberries, pagers, cameras, palmtop computers, lap tops, PDA's, radios, headsets, portable fax machines, recorders, organizers, databanks, and electronic dictionaries or translators) must be muted or turned off during class. Such activity during class time is deemed to be disruptive to the academic process. Personal communication devices are to not be on the student desk during examinations. Usage of such devices during exams is expressly prohibited during examinations and will be considered cheating (see academic honesty section above).

## **Student Course Reinstatement Policy:**

Students have a responsibility to arrange payment for their classes when they register, either through cash, credit card, financial aid, or the installment plan. Faculty members have a responsibility to check their class rolls regularly, especially during the early weeks of a term, and reconcile the official class roll to ensure that no one is attending class whose name does not appear on it. Students who are dropped from their courses for nonpayment of tuition and fees who request reinstatement after the official date of record (OE Date) can be reinstated by making payment in full and paying an additional \\$75 per course reinstatement fee. A student requesting reinstatement should present the registrar with a completed **Enrollment Authorization Form** with the signature of the instructor, department chair, or dean who should verify that the student has been attending class regularly. Students who are reinstated are responsible for all course policies and procedures, including attendance requirements.

### Resources:

The HCC Tutoring Centers provide free tutoring for individual subjects offered at specific times throughout the week on various campuses. There is no need to make an appointment. If you need a tutor, visit: <a href="www.hccs.edu/findatutor">www.hccs.edu/findatutor</a> for times and locations. For more information about tutoring at HCC, visit <a href="www.hccs.edu/district/students/tutoring">www.hccs.edu/district/students/tutoring</a>.

Additional help is also available through Student Support Services. Students can get free assistance, 24 hours a day, 7 days a week, in Math, English and other subjects, at <a href="https://hccs.upswing.io/">https://hccs.upswing.io/</a>. Typically, posted questions are answered by an HCC tutor or faculty within 24 hours (usually under 6 hours). There are also several online math resources that you can find with an internet search. You may also find information on the Learning Web site accessible through your specific HCCS campus website.

### EGLS<sub>3</sub> -- Evaluation for Greater Learning Student Survey System

At Houston Community College, professors believe that thoughtful student feedback is necessary to improve teaching and learning. During a designated time, you will be asked to answer a short online survey of research-based questions related to instruction. The anonymous results of the survey will be made available to your professors and division chairs for continual improvement of instruction. Look for the survey as part of the Houston Community College Student System online near the end of the term. Visit <a href="www.hccs.edu/EGLS3">www.hccs.edu/EGLS3</a> for more information.
