

HOUSTON COMMUNITY COLLEGE SYSTEM
HCCS-Distance Education

PHYS 1305 Introductory Physics 1 CRN: 80942

Course Intent: Health Science Professions, Education, Sciences, General Studies

Prerequisites: None

Course Credit: 3 Semester Hours

Instructor: Olatunde (Tunde) Amosu; Phone: 832-359-8414;

email address: olatunde.amosu@hccs.edu

I will respond to email messages within 24 hours: M-Sat

For Technical Assistance: 1-866-588-5281

Distance Education Phone: 713-718-5275 (Administrative matters)

On-line tutoring: www.hccs.askonline.net. Available 24/7

Textbook: Physics-A World View; 7th edition by Kirkpatrick / Francis

The course is an integration of 2 parts, a standard textbook, and an internet on-line course. Students must buy and read the correct text book. This course will be accessible with an account password, which will be given to you after you complete the online orientation, and are to be used only for this course and only by you, the student. Most of you will find the material is new to you. Please set aside adequate time for study - you will probably need to spend at least 3 hours per week!!!

COMMUNICATION:

Most announcements regarding the course will appear on the homepage of the WebCT internet course. Check these announcements each time you login. All major announcements will be updated on a weekly basis.

Test date: Four (4) tests. One per module as announced & final on May 3, 2012

Course Layout: Course content is organized into four modules.

Module One: Chapters 1 , 2 & 3

Module Two: Chapters 4 & 5

Module Three: Chapters 6 & 7

Module Four: Chapter 8 & 9

Module Five: Chapters 10, 11 & 12

Course Description

This course is a non-calculus based course provided for students with a good background in mathematics and algebra. It is a conceptual course in introductory physics for students majoring in fields (Health Sciences, Education, General Studies, Arts, and Technology etc) or as remedial course for science, mathematics or engineering students. The course will cover the fundamental topics in classical and modern physics.

Course Objectives

The main objective of this course is to provide non-science oriented students with a clear and logical presentation of some of the basic concepts and principles of physics. This course is intended as a non-lab-based preparatory course for students wishing to take PHYS 1401 and PHYS 1402, and also for those students wishing to take PHYS 2325 who have no prior knowledge of physics.

Upon completion of this course, students are expected to

- be able to have knowledge about measurements
- be able to describe the motion (Avg. speed, velocity, acceleration, displacement) of a particle
- Understand the Newton's laws of motion, gravity,
- Understand three (3) fundamental conservation laws: momentum, energy, rotational, Structure of Matter and State of Matter.

New DE Student Userid

Your new student login userid will be your HCC User ID (sometimes referred to as the "W" number). All HCC students have a unique User ID. It is the same number you use for class registration. For students who have taken DE classes in previous semesters, the login will no longer be "firstname.lastname" + the last 2 digit of your SS #.

If you do not know your User ID you can look it up by visiting the HCC home page:

- From www.hccs.edu, under the column "CONNECT", click on the "Student System Sign In" link
- Then click on "Retrieve User ID" and follow the instructions.

Or use the direct link to access the Student Sign In page:

<https://hccsaweb.hccs.edu:8080/psp/csprd/?cmd=login&languageCd=ENG>

The default student password is "distance." Students will then be prompted to change their password after their first login. Please visit the Distance Education (DE) Technical Support website if you need additional assistance with your login.

These new student login procedures apply to classes taught in both WebCT and Blackboard.

Students with Disabilities

HCCS is committed to compliance with the American with Disabilities Act and the Rehabilitation Act of 1973 (section 504).

"Any student with a documented disability (e.g. physical, learning, psychiatric, vision, hearing etc.) who needs to arrange reasonable accommodation must contact the appropriate HCC Disability Support Service (DSS) Counselor at the beginning of each semester.

Instructors are authorized to provide only the HCC DSSO approved accommodations but must do so in a timely manner.

Students who are requesting special testing accommodations must first contact the appropriate (most convenient) DSS office for assistance each semester.

Disability Support Services Offices:

System: 713.718.5165

Central: 713.718.6164 - also for Deaf and Hard of Hearing Services and Students

Outside of the HCC District service areas.

Northwest: 713.718.5422

Northeast: 713.718.8420

Southeast: 713.718.7218

Southwest: 713.718.7909

The student must request an accommodation before the start of each semester (as applicable) and should indicate to the DSS counselor when he/she is enrolled in a DE class as the processing differs from that of on-campus. After student accommodation letters have been approved by the DSS office and submitted to DE Counseling for processing, students will receive an email confirmation informing them of the Instructional Support Specialist assigned to their professor and that the accommodation letter has been processed.

Upon consultation and documentation, you will be provided with reasonable accommodations and/or modifications.

Also visit the ADA web site at:

<http://www.hccs.edu/students/disability/index.htm>. [Faculty Handbook /](#) faculty Orientation is also available at <http://www.hccs.edu/sudnts/disability/faculty.htm>

EARLY ALERT

HCC has instituted an Early Alert process by which your professor may "alert" you and DE counselors that you might fail a class because of excessive absences and/or poor academic performance.

INTERNATIONAL STUDENTS: International Students are restricted to ONLY ONE online/distance education class per semester. Please contact the International Student Office at 713-718-8520 if you have additional questions about your visa status.

DISTANCE EDUCATION (DE) ADVISING AND COUNSELING SERVICES

Much DE student information can be found on the DE Student Services website: de.hccs.edu. Advising or counseling can be accomplished by telephone at 713-718-5275-option #4, via email at de.counseling@hccs.edu, by visiting the Distance Education Office at the HCC Administration Building, 3100 Main Street, 3rd floor and / or through our online request form [AskDECounseling](#). Counselors and Student Services Associates (SSA) can assist students with admissions, registration, entrance testing requirements, degree planning, transfer issues, and career counseling. In-person, confidential sessions can also be scheduled to provide brief counseling and community referrals to address personal concerns affecting academic success. Confidential sessions with the distance education counselors will help

ASKDECOUNSELING FORM

[AskDECounseling](#) is a student services online help form. This is the best and quickest way for students to get accurate assistance with DE registration, enrollment, advising, and counseling. The online help form is simple to fill out, convenient, and readily accessible through the internet. Students do not have to travel to campus sites, leave work, or wait in an office or lobby to receive assistance. Upon submission, student requests are answered in the order they are received.

ONLINE TUTORING

HCC provides free online tutoring in writing, math, science, and other subjects. How to access AskOnline: Click on the Ask Online button in the upper right corner of the Blackboard course listings page. This directs students to the HCC AskOnline Tutoring site: <http://hccs.askonline.net/>. Use your student ID or HCC e-mail address to create an account. Instructions, including a 5-minute video, are provided to make you familiar with the capabilities of this service.

SOCIAL NETWORKING

DE students are encouraged to become a fan of [DE on Facebook](#) <http://www.facebook.com/HCCDistanceEd> and to follow [DE on Twitter](#): <http://twitter.com/HCCDistanceEd>. These social networking sites help DE foster student engagement and provide a sense of community for the online learner. Students will also stay informed about important information and announcements.

LIBRARY RESOURCES

As a DE student you have the same access to first-rate information resources that the HCC Libraries make available to all HCC students. A special website pulls together all the tools DE students will need to get their research rolling. [Library Resources](#) link is specifically for DE students: http://library.hccs.edu/library_services/distance.php

CLASS ATTENDANCE

As stated in the HCC Catalog, all students are expected to attend classes regularly. **Students in DE courses must log into their Eagle Online class or they will be counted as absent.** Just like an on-campus class, your regular online participation is required. The professor will track your participation and the activity or work done

Although it is the responsibility of the student to withdraw officially from a course, the professor also has the authority to block a student from accessing Eagle Online, and/or to withdraw a student for excessive absences or failure to participate regularly. DE students who do not log into their Blackboard class before the Official Day of Record will be automatically dropped for non-attendance. Completing the DE online orientation does not count as attendance.

Course Repeater Policy

The State of Texas imposes penalties on students who drop courses excessively. That is, if students repeat the same course more than twice, they have to pay extra tuition. In addition, as of Fall 2007, students are limited to no more than SIX total course withdrawals throughout their educational career at a Texas public college or university. To help students avoid having to drop/withdraw from any class, HCC has instituted an Early Alert process by which professors will "alert" students to Distance Education (DE) counselors when a student is at risk of failing a class because of excessive absences and/or poor academic performance. Students must then contact their DE professor regarding their academic performance or a DE counselor to learn about what, if any, HCC interventions might be available (online tutoring, child care, financial aid, job placement, etc.) to stay in class and improve academic performance.

HCC Course Withdrawal Policy

For 16 week Spring 2012 classes, this date is **March 29th (4:30pm)**. **In order to withdraw from a DE class, students MUST request to be withdrawn by notifying the DE professor. This must be done PRIOR to the withdrawal deadline to receive a "W" grade.** If a student does not request to withdraw before the deadline, the student must be assigned a letter grade that is earned by the end of the semester (A, B, C, D, and F). If a student does not feel comfortable contacting his/her professor to withdraw, he/she may contact a DE counselor. Student do **not** need to contact both the professor and counselor; either one is sufficient. When requesting to be withdrawn by a counselor, students must provide a written notification including all course information as outlined in the How to Drop section of the DE Counseling Student Services website section. For final withdrawal deadlines for regular and second start terms, students should check the HCC Academic Calendar by term, which is posted on HCC's homepage. Please contact the HCC Registrar's Office to determine these withdrawal deadlines. If you need assistance, do not hesitate to contact me (my phone number and e-mail address are listed above). I am here to help.

HOW TO DROP

- If a student decides to drop or withdraw from a class upon careful review of other options, the student can drop online prior to the deadline (March 29th) through their HCC Student Center.
<https://hccsaweb.hccs.edu:8080/psp/csprd/?cmd=login&languageCd=ENG>
- HCC and/or instructors may drop students for excessive absences without notification (see Class Attendance below).
- Students should check HCC's Academic Calendar by Term for drop/withdrawal dates and deadlines. Classes of other duration (mini-term, flex-entry, 8-weeks, etc.) may have different final withdrawal deadlines. Please contact the HCC Registrar's Office at 713.718.8500 to determine mini-term class withdrawal deadlines.

Attendance policy

VIRTUAL CLASSROOM CONDUCT: As with on-campus classes, all students in HCC Distance Education courses are required to follow all HCC Policies & Procedures, the Student Code of Conduct, the Student Handbook, and relevant sections of the Texas Education Code when interacting and communicating in a virtual classroom with faculty and fellow students. Students who violate these policies and guidelines will be subject to disciplinary action that could include denial of access to course-related email, HCC facilities, and chat rooms or being removed from the class list.

NOTICE FOR STUDENTS WHO LIVE OUTSIDE OF HCC SERVICE AREA: PROCTORING (in case of paper exam): Students who live outside the Houston area and cannot take paper exams at one of our HCC testing locations **MUST** complete the proctor approval application at least 2 weeks prior to the first assignment or exam. It is the responsibility of the student to obtain a proctor. Students should visit the Distance Education (DE) Student Services webpage for more information or contact DE Counseling through the Ask DE Counseling online help form: <http://de-counseling.hccs.edu/StudentSignIn/>

Homework / Assignments

There will be homework problems or assignments assigned as specified on the schedule. Please abide with the date scheduled. They will be graded for credit; students are strongly encouraged to attempt all assignments/ homework's. **No make up assignments.** The effort spent will enable you to perform better in tests and final exam.

COURSE SCHEDULE and Date for the assignments, online Test and Final Examination

Week	Chapters	Topics to be covered
1	1	A World view
2	2	Describing Motion Assignment #1- (Jan 27 - Jan 29)
3	3	Explaining Motion
4		ONLINE TEST # 1 (Feb 3-5) (Chapters 1-3)
5	4	Motions in Space - 2/10
6	5	Gravity - 2/14 ONLINE TEST # 2 (Feb 17 - 19) (Chapters 4-5)
7	6	Momentum - Feb 23 Assignment #2 (Feb 24 - 26)
8	7	Energy - Feb 27
9		ON LINE TET # 3- March 2- 4 (Chapters 6 & 7)
10	8	Spring Break - March 12-18 Rotation - March 23
11	9	Classical Relativity - March 30 ON LINE TEST # 4 - March 30 -April 1 (Chapters 8 & 9)
12	10	Einstein's Relativity - April 6
13	11	Structure of Matter - April 13 Assignment # 3 (April 14 - 16) Chapters 10 & 11
14	12	States of Matter - April 20
15		Review (look for the schedule online)- April 23 - May 2
16		FINAL EXAM. May 3-6 (Chapters 10, 11,12)

All the assignments and on line tests are open or available from 9am of Friday to midnight of Sunday.

No Make Up for any assignments, tests & final examination

EXAMS AND GRADING:

- * 60% of your course grade is based on the lecture exams. There will be a total of five lecture exams (four and a final) and all tests and exam are on line with a specific period and allowing time duration. Each test or exam will contain a number (50) of randomized

multiple-choice questions. Multiple Choice questions need to be answered on line. Out of the above four lecture exams you have a choice to drop the lowest score (grade).

If you miss an exam it automatically becomes your drop exam. No make up exams will be given.

- * 25% of your course grade is from the final examination taken during the May 9-10, 2011. The final examination is compulsory for all the HCCS students.
- * 15% of your course grade is from 3 online Assignments, which you will complete and submit, online. Please follow the syllabus & calendar for each online test and assignment. The deadline for submitting the test will be **midnight Sunday**. No make up is entertained. Each assignment will have **25 randomized questions**. These tests/assignments are open book and open note and there is a time limit in which you have to finish. You will be given only one attempt to finish them, hence attempt these tests only after going through the chapter lecture note and textbook thoroughly.

Every two weeks there will be a discussion posting based on the material covered in the week. You are required to attempt a minimum of 5 discussion postings in the semester. Most postings will require you to write your own views on a particular topic, you can site the works of others to support your views, but be original in your comments.

GRADE COMPUTATION:

3 Lecture exams online (lowest 1 to be dropped)	60 pts (60%)
3 Online Assignments	15 pts (15%)
Final Examination-May 3-6, 2012	25 pts (25%)
Total	100 pts (100%)

A = 90 above

B = 80-89

C = 70-79

D = 60-69

F = below 60

ISSUANCE OF EXAM GRADES:

Grades will be posted on the Internet as soon as possible. Grades will not be posted at anytime during the semester. You can check your final grade on the web site www.hccs.edu . The HCC system office will no longer mail the transcripts to you.

Success in this course depends solely on the individual student!

The following are strongly recommended for each student:

- * Read and understand all elements of the Syllabus, Distance Education and Student handbooks.
- * Give your professor evening (after 9pm or week-ends) phone calls or e-mail.
- * Read and comprehend the required chapters in the textbook prior to the exams.

- * Successfully complete all requirements of this course as outlined in this document.
- * Contact your professor if you have any questions regarding any element of the course you do not understand.
- * HINT: Work hard from the beginning of the semester rather than playing a "catch-up game during the second half of the semester.
- * Student CD-Rom accompanying the textbook and student web site of the publisher are excellent sources to review course content.
- * Plan to go to review sessions to clarify your concerns about the course content.

Important Dates:	
January 17	Regular classes' begin
March 29 before 4:30 pm	Last Day for Administrative and Student Withdrawal
May 18	Grades available to students

TIPS FOR NAVIGATING THROUGH THE INTERNET COURSE:

Power point: give you a vivid lecture presentation just like a classroom teaching and learning.

Practice Tests: through those tests, find out something you don't understand. Redo those tests many times as you can.

Assignments: prepare you for the online tests

Practice tests: practice those tests and the final examination, before you submit the real answers. **Lecture (video):** watch the live video in addition of reading the book will help you to understand. **Review:** those reviews are the key points and basic skill needed to master the physics material.

Have a GREAT SEMESTER and please remember to email me if any questions arise.

Important dates

January 8:	Online Orientation
January 16:	Office Closed- Martin Luther King Jr (Holiday)
January 17:	Regular classes' begin- Drop/Add/Swap
January 18:	Registration Ends
January 18:	Last day for Drop/Add/Swap
Feb 20:	Office closed- Presidents Day (Holiday)
March 12- 18:	Offices closed- Spring Break (Holiday)
March 29:	Last day for student withdrawals- 4:30pm
April 6-8:	Offices closed- Easter Holiday
May 6:	Instruction ends
May 7-13:	Final exam begins on HCCS regular class schedule
May 13:	Semester Ends
May 14:	Grades Due by 12:00 noon
May 18:	Grades available to students
