## **Background and Career Aspiration**

I have twenty five years of medical clinic/hospital experience in Clinical Practice and research. Fifteen years of University/Hospital teaching experience. Had served in various progressive committees at the University level and an experience medical examiner.

My goal is to make positive impact in people, institutions and environment. I seek an environment that is positively disposed to maintaining high academic standard, where my knowledge and experience will be used effectively. I look forward to expanding my academic background and experience especially in a citadel of learning and medical practice.

## **Work Experience**
