COURSE EXPECTATIONS CONTRACTUAL AGREEMENT

RNSG 2263

CLINICAL-MENTAL HEALTH NURSING

I ______, have read the syllabus and fully understand the expectations of me as a student in this clinical course.

My signature below signifies my willingness to comply with the course requirements.

I. COURSE DESCRIPTION:

A method of instructions providing detailed education, training, work based experience, and direct patient/client care, in community and hospital settings. This course is designed to introduce the student to mental health needs of individuals and families across the life span. The [Type here] Revised 5/14/2015 focus is on communication skills, psychiatric disorders and various treatment modalities. Clinical activities include nursing care of clients in community and hospital setting. On-site clinical instruction, supervision, evaluation, and placement are the responsibility of the college faculty. Clinical experiences are unpaid external learning experiences.

II. PRE-REQUISITES: AS PER ADN HANDBOOK POLICIES

III. CO-REQUISITE: RNSG 2213

IV. COURSE OBJECTIVES:

- 1. Determine the mental health status and mental health needs of clients and families across the life span with disordered behavior problems based upon interpretation of health data in collaboration with clients, families, and other health care professionals.
- 2. Formulate goals and plan of care for clients and their families with mental-health problems based upon analysis of the data in collaboration with clients, families, and other health care professionals.
- 3. Implement the plan of care within legal and ethical parameters using various therapeutic treatment modalities to assist clients and their families to meet health care needs safely.
- 4. Use principles of therapeutic communication with clients and families in collaboration with other health care professionals.
- 5. Design a teaching plan based upon identified learning needs of clients and their families concerning health promotion and health maintenance.
- 6. Use various methods to evaluate client and family responses to therapeutic interventions. (i.e., Abnormal Involuntary Movement Scale)
- 7. In collaboration with other health care professionals, manage a therapeutic milieu with a group of clients in a hospital or community setting.
- 8. Use principles of psychopharmacology to identify safe and effective clinical management of clients taking psychiatric medications through assessment, diagnosis, and treatment.

V. METHODS OF ACCOMPLISHING LEARNING OUTCOMES

- 1. Classroom lecture/ discussion
- 2. Multimedia Computer Aided Instruction
- 3. Independent study of assigned topics
- 4. Clinical Experiences

VI. EVALUATION

A. CLINICAL GRADING:

Criteria for passing the clinical portion of the course include all of the following:

- The student must submit two satisfactorily written process recordings of two Therapeutic conversations.
 Each Process Recording is worth 15% each for a total of 30% of your clinical grade.
 Due Date: Week of June 14th & June 28th in clinical.
- 2. Students must submit one care plan which obtains a grade of 75 or greater. Failure to obtain a grade of 75 on a care plan will result in the student's submitting an additional care plan within one week of the initial failure. The new care plan (not a revised care plan) must obtain a grade of 75 or greater.
 Care Plan = 25% for a total of 25%.
 Due Date: Week of June 21 in clinical.
- All students are required to attend two Twelve-Step Program meetings. Two written papers concerning the Twelve Step meetings are required Twelve Step Paper = 10% each for a total of 20% of your clinical grade.
 Due Date: Week of May 31 & July 5th in clinical.
- 4. All students are required to submit a weekly clinical journal related to situations encountered in the clinical settings.
 Six weekly clinical journals are worth 10% of your clinical grade.
 Due Date: Every week in clinical
- All students must complete the depression scale for a geriatric client in the clinical setting and submit a narrative paper = 5% of total grade
 Due Date: Week of July 5 in clinical
- 6. All students must review eight mental health nursing films and complete a review analysis using the grading rubric.
 Due Date: Weekly in clinical. The analysis will account for 10% of your final grade.
- 6. Clinical evaluation is an ongoing weekly process and will be formally conducted once during the semester. Student whose performance is in need of improvement is counseled by faculty and informed in writing.

Behavior of any student that endangers the lives' of clients, other people, and/or oneself may lead to removal of that student from the clinical facility.

There may be additional written work as assigned by your instructor dependent on the particular needs and types of clients. In addition, if a student turns in work late the instructor will deduct five (5) points each day up to seven (7) days. Papers exceeding (1) week or 7 days will result in a zero for the grade. [Type here]

Revised 5/14/2015

All students must review a film from the following web site: <u>http://www.nursingschools.net/blog/2011//04/the-10-best-movies-about-mental-health</u> each week . The grading criteria will be used for this project.

GRADING SCALE:*

A = 90 - 100B = 80 - 89C = 75 - 79D = 60 - 74F = below 60

VII. ATTENDANCE AND TARDINESS

A. CLINICAL:

Students are expected to attend all scheduled days of clinical experience and orientation. Clinical absences are unacceptable. For RNSG 2263, student must complete 96 hours for mental health clinical rotation. Students are also responsible for notifying the instructor, before duty time, if he/she is going to be absent or anticipates tardiness. **Students who fail to notify their clinical instructor of a clinical absence will receive a zero (0) for this behavior on the weekly performance evaluation.** If you leave clinical early it will a result in an absence. Any unexcused absence will result in a deduction of 10% per occurrence to the final grade. Failure to complete the required hours may result in the student receiving an incomplete for the clinical course and may not progress in the program. Any absence must be accompanied by valid documentation. A student who has excessive absences may be administratively dropped from the course.

Two tardies equal one absence. One (1) instance of clinical tardiness will result in the student being counseled for unprofessional conduct. Arriving at the clinical site more than 30 minutes late will result in the student being dismissed from the clinical area and marked absent.

Students who are either pregnant or have become pregnant during their clinical rotation must submit documentation from their physician to assume full duty in clinical. For the safety of the student, clinical facilities have the right to deny clinical experience to those who are pregnant.

VIII. REQUIRED TEXTBOOKS:

- A. <u>Townsend Mary, C. Essentials of Psychiatric Mental Health Nursing (Concepts of</u> <u>Care in Evidence-Based Practice); F.A. Davis Company, 6th edition, 2014.</u>
- B. <u>**Recommended Reading:**</u> Any supplemental reading materials or learning tools will be announced by the instructor of the course.
 - 1. American Nurses' Association: A statement on psychiatric mental health clinical nursing practice and standards of psychiatric-mental health clinical nursing practice.

IX. POLICIES:

All students will adhere to HCCS policies as delineated in the HCCS and ADN handbooks.

X. SPECIAL NEEDS:

[Type here] Revised 5/14/2015 Students with special needs should refer to the procedure identified in the HCCS Student Handbook. The procedure may be started with a phone call to the Coleman College Disabilities counselor.

XI. LEARNING ACTIVITIES

A. Contemporary Technology

- 1. Computer Assisted Instruction
- 2. Classroom Instructional Software
- 3. Videos
- 4. Medline Access

B. Concept Reinforcement

- 1. Clinical experiences
- 2. Critical thinking scenarios
- 3. Seminar activities
- 4. Study Guide exercises

C. Clinical Activities

- 1. Community Agencies
- 2. Provide supervised nursing care for clients in selected hospitals and/or community mental health clinics

XII. METHODS OF EVALUATION

1. Completion of clinical requirements with a grade of 75 or greater.

XIII. REFERENCES

- 1. Required textbook
- 2. Current nursing professional journals/periodicals (within the last five years)
- 3. Current edition of Publication Manual of the American Psychological Association

POLICY AND PROCEDURE STATEMENT RE: CLINICAL BEHAVIORS

INTRODUCTION/PURPOSE:

The clinical component for the A D N courses is graded on a Pass/Fail basis utilizing a summative tool at the end of each clinical rotation. The purpose of this statement is to identify the procedure and consequences for unsatisfactory behaviors. These procedures should be initiated upon the occurrence of the unsatisfactory behavior or action rather than at the conclusion of the clinical rotation.

Clinical behaviors that are normally dealt with fall into three categories: The **first level** identified as **BNI** (behaviors needing improvement) involve incidents such as uniform infractions and misunderstanding of care plan assignments. The **second level**, identified as **RNI** (reportable negative incidents) are more serious infractions which necessitate more serious recognition and remediation. An example might be the failure to report vital signs not within the normal range or repeated failure to report to the clinical area without the appropriate preparation. The **third level**, identified as **RNCI** (reportable negative critical incidents) indicates a **very serious infraction** which has endangered or impaired a life. These behaviors correspond to the Critical Elements that the faculty has identified as *Safety*, *Accountability*, *and Confidentiality*. An example might be a medication error that impaired a life or side rail left down resulting in patient injury. Student behaviors related to the Critical Elements are starred on the Clinical Evaluation Tools. Three **RNI's or the occurrence of 1 RNCI (reportable negative critical incident) may result in a student being dismissed from the A D N program upon recommendation of a 5 member faculty committee.**

PROCEDURE:

- Level I BNI (Behaviors Needing Improvement)
 - 1. Identify the behavior to the student and counsel as needed.
 - 2. Document behavior or action via the ADN's "Prescription for Success" form or an HCCS Contact Action Form.
 - 3. Observe and document correction of behavior or action.
- Level II RNI (Reportable Negative Incident) May be a more serious offense as described above or repetition of a particular BNI.
 - 1. Identify the behavior or action to the student.
 - 2. Fill out a Contact Action Form **and** designate the incident as an RNI and submit it to the campus Department Head.
 - 3. The Department Head will then activate a 5 member faculty hearing committee to determine if the offense warrants elements being **one of the three RNI's**.
 - Three RNI's approved by a 5 member faculty hearing committee may result in the student being dismissed from the A D N program at any point during the course of study.
 - 4. If the RNI was not approved, the incident is filed only as a BNI and the student will be required to do remediation designated by the committee.

Level III - RNCI(Reportable Negative Critical Incident - One in which life is impaired or endangered)

- 1. Steps 1 and 2 as above, **however** the Contact Action must be identified as an RNCI (reportable negative critical incident).
- 2. Step #3 as above, however, the Faculty Committee must now determine if this behavior warrants removal of the student from the program or decide if this is one of the three RNI's.
- 3. If the Reportable Negative Critical Incident report is accepted by the committee, **then institutional policy** is followed to remove the student from the program.
- 4. If an RNI status is granted, then assigned remediation must be performed by the student.

My signature below signifies that I have read and fully comprehend the above policies and procedures with their accompanying implications.

FINAL Course Grade

PROCESS RECORDING GRADING FORM REQUIRMENTS

- 1. Process recordings should be focused with an appropriate topic for the interaction; namely, the objective/goal. The interaction should be 20 minutes for the first interaction and the second process recording should be 30 minutes long with a concentrated effort by the student to observe and record the content and context of the focused interaction.
- 2. Turned in on time or five (5) points per day deducted from your process recording clinical grade if turned in late each day.
- 3. Documentation reflects student's sincere attempt at therapeutic communication. Student begins interaction with an appropriate opening, and directs interaction toward the established goal(s) and within the established boundaries. Refer to the Process Recording Grade Sheet for additional parameters.
- 4. Student is able to identify appropriate significant insights into their own behavior as well as the client's behavior (Defense mechanisms, content and context of interaction(s)).

PROCESS RECORDING GRADE SHEET

Name: ______

Date: _____

Five (5) points will be deducted for spelling, grammar, punctuation errors. Five (5) points per day will be deducted for paper not submitted on time.

Criteria	Possible	Actual
	Points	Points
1. Parameters: Student establishes parameters for session	6	
2. Clarification: Recognized when clarification is needed	12	
and validates with client during the interview		
3. Recurrent Themes: Identifies obvious, recurrent	12	
themes in the client's conversation		
4. Defense and/or coping mechanisms: consistently	12	
identifies mechanisms correctly		
5. Recognition of behavior: Recognized changes in the	12	
client's behavior and usually follows through with		
appropriate nursing interventions.		
6. Communications Techniques: Correctly uses a variety	12	
of therapeutic techniques. Consistently identifies techniques		
correctly. Identifies rationale for using various techniques.		
Conscious and therapeutic use of non-verbal		
communication. Provides restatement for any non-		
therapeutic statements in evaluation.		
7. Student's Thought and Feelings: Identifies own	12	
thoughts and feeling during interaction or on evaluation.		
8. Change of topic: Student changes the topic or the focus	-5	
of the client's topic.		
9. Closure: Student brings closure to the session in an	6	
appropriate manner.		
10. Goal(s): States goal(s) for interaction. Goal(s) is/are	8	
specific, realistic, and appropriate.		
11. Feedback: Student directs feedback toward behavior	8	
that the client has the capacity to modify		
Points deducted for late submission		
Points deducted for errors in spelling/punctuation/		
grammar.

COMMENTS:

TWELVE STEP PROGRAM PAPER REQUIREMENTS

Student Requirements:

- 1. Student must attend two 12-Step Chemical Dependency Programs, one AA and one CA or NA group, where the group leader is a peer, not a professional.
- 2. Students will respect the anonymity/confidentiality of the group members. No last names or any identifiable criteria will be obtained from members of the group.
- 3. Student will dress appropriately (no shorts, t-shirts, tight clothes, etc). Students will not wear name tags or any other markings which will identify them as an HCC student. Student's focus in attending this self help program is NOT participation but observation of interactions within the group.

Directions for Paper:

After attending 12-Step meetings, the student will submit a typed (1-2 page) paper for each support group visited. The papers must include a grade sheet as well as the items listed below. 12 Step papers must be typed. Points will be deducted (maximum of five (5) points) for spelling, grammar, punctuation errors. There will be eight (8) sections in the paper, and each section will be labeled by the title of the alpha label, and will contain the descriptive response for that section. For example: a. Type of Group Attended; b. Philosophy of the meeting. Five points per day will be deducted for papers not submitted on time.

- a. Identify the type of group attended (i.e. Alcoholic Anonymous, Cocaine Anonymous, etc).
- b. Describe the philosophy of the particular 12-Step Meeting attended.
- c. Where was the meeting held and who sponsored the meeting?
- d. Discuss the demographic make-up of the group members
- e. What were the ground rules for the meeting?
- f. Describe the interactions that took place while the meeting was in session.
- g. Describe the primary theme or themes that seemed to dominate the group process. Were they directly or indirectly related to the stated reasons for the group meeting?
- h. Describe the major functional problem area(s) of the group members. How does abuse affect their life?

Verbal Interactions	Verbal Interactions	Feelings	actions/communications)
(Verbatim)	(Verbatim)		
 <u>Each interaction include:</u> 1. Verbatim transcript of your verbal and nonverbal communications a. Nonverbal communications should be enclosed in parentheses. b. Include your posture-body movements, facial expressions, sound inflection-rate-volume & eye contact. 	 <u>Each interaction include:</u> 1. Verbatim transcript of patient's verbal and nonverbal communication. a. Nonverbal communication should be enclosed in parentheses 	 <u>Each interaction include:</u> 1. Written description of your conscious thoughts and feelings experienced at the time of the interaction a. Recording of thoughts and feelings will assist you to: 1. Recognize overt and covert clues of behavior that indicates feelings. 2. Increase acceptability of your overt expressions of feelings. 3. Increase self-introspection of your response, expression, or lack of expression or feelings. 	 Each interaction include: I. Identify communication techniques. State whether the technique is therapeutic or non-therapeutic. Explain rationale for using technique. Ask yourself: "What does this behavior mean?", "Why am I saying this?", "Why did the patient say that?" Identify specific defense mechanisms and/or coping mechanisms Inferences or interpretations of behavioral dynamics. Corrects and provides restatement for non-therapeutic statements. Everything appearing in this column must be documented according to APA format and from a source of authority.

Weekly/Summative Formative Evaluation Tool RNSG 2263 Mental Health Nursing Clinical Component Student _____

BEHAVIOR	Date	COMMENT/EXAMPLE							
 Reports to clinical on time and/or notifies appropriate personnel of tardiness or absence. 									
2. Reports information critical to client care in a timely manner.									
3. Seeks and requests learning experiences to enhance own learning, including using learning resources such as library, internet, nursing journal, etc.									
 Completes weekly medication review using a variety of psychotropic medications. 									
5. Demonstrates acceptance of own responsibility and accountability for nursing practice.									
6. *Maintains confidentiality in all client matters.7.*Functions Safely									
 8. Demonstrates through appearance, verbal or written communication, and person to person interactions, a courteous, constructive and positive attitude 									
9. Reviews client data and/or receives report on client to ensure proper care.									
10. Seeks out client and endeavors to establish a rapport									
11. Uses therapeutic communication when interacting with client									
12. Helps support the therapeutic milieu by initiating and participating in social, recreational, and diversional activities.									
13. Indicates basic knowledge of client medications.									

[Type here] Revised 5/14/2015

14. Identifies emotions, behaviors and physiological signs and symptoms			COMMENTS/EXAMPLE
manifested by psychiatric clients.			
15. Identifies teaching needs of clients in relation to cultural, economic,			
and personal learning abilities.			
16. Assesses the behavioral dynamics of the individual client, i.e.,			
defense mechanisms. 17. Formulates appropriate nursing			
diagnoses for particular clients/families.			
18. Writes and/or discusses immediate and short-term client goals and			
measurable outcome criteria designed to reduce/alleviate client problems.			
19. Communicates outcomes of care and pertinent information verbally and in writing.			
20. Seeks & uses feedback from instructor/nursing staff.			
21. Written assignments are turned in on time.			
22. Maintain standard of performance under stress.			
 Seeks clarification of assignment & role responsibility when in doubt. 			

* Indicates the behavior critical to performance and student must receive a satisfactory rating in these areas. One unsatisfactory in a critical area will result in ten points deduction from the final grade. Three unsatisfactory in other areas will result in five points deduction from the

final grade.

GERIATRIC DEPRESSION SCALE (Short Form) (Mandatory For Geriatric Clients)

Choose the Best Answer for How You Felt Over the Past Week

1.	Are you basically satisfied with your life? yes/no
2.	Have you dropped many of your activities and interests? yes/no
3.	Do you feel that your life is empty?yes/no
4.	Do you often get bored? yes/no
5.	Are you in good spirits most of the time? yes/no
6.	Are you afrai0d that something bad is going to happen to you? yes/no
7.	Do you feel happy most of the time?
8.	Do you often feel helpless?
9.	Do you prefer to stay at home, rather than going out and
	doing new things? yes/no
10.	Do you feel you have more problems with memory than most? yes/no
11.	Do you think it is wonderful to be alive now? yes/no
12.	Do you feel pretty worthless the way you are now?yes/no
13.	Do you feel full of energy?
14.	Do you feel that your situation is hopeless?
15.	Do you think that most people are better off than you are?

The following answers count one point; scores > 5 indiçâtes- probable dépression:

1.	NO	6.	YES	11.	NO
2.	YES	7.	NO	12.	YES
3.	YES	8.	YES	13.	NO
4.	YES	9.	YES	14.	YES
5.	NO	10.	YES	15.	YES

Write a 2 page double space narrative paper describing your client's affect, mood and five three part nursing diagnoses.

What independent and collaborative interventions could be utilized to improve your client's mental wellbeing?

SCANS

AREAS OF COMPETENCY FOR RNSG 2263

The following areas of competency will be determined in this course (RNSG 2263) by the following means:

ENHANCE BASIC SKILLS

28) Perform listening skills

This skill will be demonstrated by the student's ability to write a process recording of a therapeutic conversation. This skill requires the ability to listen to what the client is really saying regarding his feelings, and underlying dynamics of behaviors. Performance will be satisfactory if a passing grade on the process recording is achieved.

#29) Speaking Competence

This skill will be demonstrated by the student's ability to give a brief oral presentation in postconference, consisting of a case study of a client. Performance will be satisfactory if the student is able to articulate the specified information.

DISPLAY APPROPRIATE PERSONAL QUALITIES

#40) Demonstrate appropriate self-esteem

This skill will be demonstrated by the student's ability to demonstrate professional conduct at all times. In so doing, the student will demonstrate belief in their own self-worth, maintaining a positive view of self, and demonstrating knowledge of own skills and abilities, as well as, being aware of this impact on others.

Performance will be satisfactory if the student is able to make a passing grade on their "clinical behaviors" performance each week.

#41) Demonstrate appropriate social skills

This skill will be demonstrated by the student's ability to participate in the therapeutic milieu in clinical. The student is expected to interact with clients, participating in planned social activities. Performance will be satisfactory if the student is able to make a passing grade on their "clinical behaviors" performance each week.

STUDENT EVALUATION OF CLINICAL AFFILIATE AGENCY

Section I:

 Affiliate Agency:

 Year:

Section II:

Please evaluate the factors listed below and circle a number from the scale that best reflects your opinion.

Least Important					Mos	t Impo	rtant	
1	-	2	-	3	-	4	-	5

Factors about the affiliate agency which enhanced your learning experience:

1 - 2 - 3 - 4 - 5	Multidisciplinary approach to health care
1 - 2 - 3 - 4 - 5	Nursing Staff
1 - 2 - 3 - 4 - 5	Patient population
1 - 2 - 3 - 4 - 5	Educational Opportunities

Section III:

Please evaluate each individual unit to which you were assigned with regards to the following criteria:

	Strongly Dis	agree				Stron	gly Ag	gree
	1 -	2	-	3	-	4	-	5
1.	Unit:		# of da	ys assig	gned to	unit:		shift:
	1 - 2 - 3	-4-5		Unit	operat	ions app	eared	organized
	1 - 2 - 3	-4-5			-	vere rea		8
	1 - 2 - 3	-4-5	i i	The s	staff w	ere good	role r	nodels
	1 - 2 - 3	-4-5		The e	experie	nce obtai	ned w	as beneficial to my education
	1 - 2 - 3	-4-5		The	health	care tea	m mer	nbers answered my questions
2.	Unit:	#	of day	's assigi	ned to	unit:		
	1 - 2 - 3	-4-5	l	Unit	operat	ions app	eared	organized
	1 - 2 - 3	-4-5			-	vere rea		8
	1 - 2 - 3	-4-5	i i	The s	staff w	ere good	role r	nodels
	1 - 2 - 3 - 3	-4-5		The e	experie	nce obtai	ned wa	as beneficial to my education
	1 - 2 - 3	-4-5		The	health	care tea	m mer	nbers answered my questions

3.	I Init.	# of days assigned to unit:	RNSG 2263 Care Plan					
5.	0mt		Sunt

HOUSTON COMMUNITY COLLEGE SYSTEM CLINICAL INSTRUCTOR'S EVALUATION BY THE STUDENT

Clinical Instructor's Name: _____Date: _____

Scale: This evaluation is on a Likert Scale of 1 - 5 with 1 being the lowest score and 5 being the highest score.

1. The instructor provides adequate and accurate information to students about clinical requirements.

2. The instructor is physically present in the clinical area on assigned days and hours to supervise students.

3. The instructor conducts a conference session with students.

4. The instructor returns student written work within one week with constructive criticism and comment.

5. The instructor provides opportunities for students to demonstrate nursing skills prior to evaluation.

6. The instructor demonstrates required skills for the students when necessary.

7. The instructor provides meaningful dialogue with the student about program progress.
