Instructor's Practices and Procedures

Academic Integrity

"Scholastic dishonesty" includes, but is not limited to, cheating on a test, plagiarism, and collusion. Cheating on a test includes but is not limited to: Copying from another student's test paper; using unauthorized materials during a test, unauthorized collaboration with another student during a test; knowingly using, buying, selling, stealing, transporting, or soliciting in whole or part the contents of a test; and bribing another person to obtain a copy of a test. Plagiarism includes the appropriation of another's work and the unacknowledged incorporation of that work in one's own written work. Collusion includes the unauthorized collaboration with another person in preparing written work. ***Any violation of the scholastic dishonesty policy will result in zero points for that assignment.*** Students receiving a 0 for plagiarism have a responsibility to immediately consult with the professor to avoid a second violation. ***More than one violation will result in an "F" for the course. No exceptions***

Here's the link to the HCC information about academic integrity (Scholastic Dishonesty and Violation of Academic Scholastic Dishonesty and Grievance):

<https://www.hccs.edu/about-hcc/procedures/student-rights-policies--procedures/student-procedures/> (<https://www.hccs.edu/about-hcc/procedures/student-rights-policies--procedures/student-procedures/>)

Attendance Procedures

It is expected that you log into the class on a regular basis and follow the activity chart on the class home page. Attendance at synchronous class sessions either online or in person is required and attendance will be taken. Active participation will be required in this class so come prepared to talk.

Student Conduct

Students will be required to participate in discussion activities and interact with fellow classmates in an online setting. Any and all communication among class participants must remain civil and respectful. Any instances of these disruptions may result in an administrative withdrawal without refund.

Instructor's Course-Specific Information

Assignments and Activities

This class will use the RISE method (risemodel.com) for evaluating all student work. This method measures the level of student thinking and ability to process information. Points will be assigned based on the difficulty of the assignment on the RISE scale as follows:

- **Reflect** – Students will be asked to respond to different areas of the class through direct comment (usually short). Two Reflection Posts will be counted every comments section for a total of 10 points (5 points each)
- **Inquire** – Students will be asked to provide additional information through research and further reading both in comments and in class activities. Inquire posts must consist of a citation and a brief statement as to why that citation is relevant. Two Inquiry Posts will be counted for every comments section for a total of 20 points (10 points each)
- **Suggest** – Students will be evaluating other students' work. A suggestion consists of a brief selection from blog, rewriting that selection, and backing up your rewrite with a citation. One Suggestion Post will be counted for every comments section for a total of 30 points (30 points each)
- **Elevate** – Students will be asked to synthesize and contribute original thought to their areas of interest. ELEVATE Assignments will be reflections on the week's work using material discussed in class (further instructions will be posted online) – ELEVATE blogs will be worth up to 100 points each and the final portfolio will be worth 300 points

Source Assignment Homework – SOURCES are similar to inquiries. Every section you will be asked to contribute 6 sources (10 points each) related to your design challenge. These sources can be snippets from the textbook or relevant articles from the internet. Like an inquiry you should add a sentence or two that summarizes and relates the main point of the source or quote to the rest of the group. These will be posted on the class blog site and added to your concept maps. *These should be completed before class on the due date. Your source must be original and cannot duplicate the sources already posted.*

Web Drafts – After each blog assignment you will be asked to add a draft section to your final portfolio website based on the blog. This will be a partially in-class assignment and each will be worth 30 points if completed.

Concept Mapping and Review Chats – These are synchronous meetings online or in person. Concept Mapping and Reading Review chats are designed to review sources and place them into the proper context to assist you in writing your blogs. Review chats are to review work done and plan for the Final Portfolio assignments. These sessions will be recorded and placed in the Canvas shell for those who can't make it.

Faculty-Specific Information Regarding Canvas

This course section will use Canvas (<https://eagleonline.hccs.edu> (<https://eagleonline.hccs.edu>)) to supplement in-class assignments, exams, and activities.
