

WELCOME HOME

November 2014

To our returning Service Members and their Families,

This resource booklet “road map” was originally prepared in collaboration with Harris County Judge Ed Emmett and former Mayor Bill White as a service to all of the men and women who have served in our nation’s armed forces. As a community, we want to continue this effort which is particularly directed to those now returning to their families, jobs, and communities from their service in Iraq and Afghanistan. We are and will remain grateful to all the men and women for selfless service to our nation, and want to make their re-entry into our community as effortless as possible.

We hope this booklet and its web-based counterparts – www.csd.hctx.net at the county and <http://www.houstontx.gov/vetaffairs/> at the city, and at www.houstonreturningvets.org set up by the combined community coalition – will continue to assist the families, employers, counselors, and faith-based institutions serving our valuable veterans. And, if you are a family member of one of our veterans who was not able to return home, we want to provide you with information to ease your burden.

This is just one aspect of our Returning Veterans Initiative; a commitment shared by our national, state and local partners to serve those injured while defending the country and support their recovery and successful rehabilitation.

We thank you, and all our partners, for your efforts.

Most respectfully yours,

Ed Emmett
Harris County Judge

Annise D. Parker

<http://www.militaryfamily.org/our-programs/operation-purple/wounded-warriors-families/>

Operation Purple Healing Adventures is an all expenses paid family camp experience for active duty or medically retired service members who were wounded or experienced emotional trauma or illness related to their service in Operation Iraqi Freedom (OIF) and Operation Enduring Freedom (OEF). Members of the National Guard and Reserve may be in either activated or drilling status, provided their injury was sustained while on active duty status.

These retreats are open to service members and their families who have experienced deployment within the last 15 months. To be eligible to be considered for these retreats, service members must have returned from deployment no less than 3 months or no more than 15 months prior to the start date of each retreat. Families who attend will receive a \$200 stipend per family upon arrival to the retreat site to cover cost of travel. Military Family Award Program

<http://www.militaryfamily.org/our-programs/awards/military-family-award-program/>

The Association's Military Family of the Year Award recognizes strong military families who embrace their service to the Nation, are role models in their community, and understand that together they are stronger. Nominate your family or a special family you know. One family from each of the seven Uniformed Services will be chosen, from the nominations submitted, to represent their Service branch. As you know that while one member joins, the whole family serves.

Teen Leadership Camps

<http://www.militaryfamily.org/our-programs/operation-purple/teen-leadership-camps/>

The Operation Purple Leadership Experience (OPLE) is for military teens that have shown an ability and willingness to lead and mentor in their military communities. The summer camps are Phase I of II of the leadership experience. Camps are united in a mutual mission: to develop strong leadership skills by giving teens the tools needed to develop self-confidence and the opportunity to test their strengths and abilities. As a condition of this free program, each teen and his or her parent(s) must sign an agreement to complete a community service project and document progress with the National Military Family Association. All participants will be required to obtain a community mentor as part of the application process.

Traditional Camps

<http://www.militaryfamily.org/our-programs/operation-purple/traditional-camps/>

Operation Purple camps offer a free week of summer fun for military kids with parents who have been, are currently, or will be deployed. The goal of the Operation Purple camp program is to give military children tools to help deal with the stresses that result from a parent's deployment, through a memorable camp experience in a "purple" environment. Operation Purple camps are open to military children of all ranks and Services: active and reserve components—and give priority to children whose parents are currently within a 15 month deployment "window").

- **Aid and Attendance Pension**

1-800-827-1000

www.va.gov

Applications may be submitted on-line at <http://vabenefits.vba.va.gov/vonapp/main.asp>.

Service: *Aid and Attendance* (A&A) is a benefit paid in addition to monthly pension. This benefit may not be paid without eligibility to pension. The Aid and Attendance pension benefit may be available to wartime veterans and surviving spouses who have in-home care or who live in nursing-homes or assisted-living facilities.

Eligibility: For a wartime veteran or surviving spouse to qualify for this special monthly pension, the veteran must have served at least 90 days of active military service, one day of which was during a period of war, and be discharged under conditions other than dishonorable. Wartime veterans who entered active duty on or after September 8, 1980, (October 16, 1981, for officers) must have completed at least 24 continuous months of military service or the period for which they were ordered to active duty. To qualify, claimants must be incapable of self-support and in need of regular personal assistance. The basic criteria for the Aid and Attendance benefit include the inability to feed oneself, to dress and undress without assistance, or to take care of one's own bodily needs. People who are bedridden or need help to adjust special prosthetic or orthopedic devices may also be eligible, as well as those who have a physical or mental injury or illness that requires regular assistance to protect them from hazards or dangers in their daily environment.

Income Requirements: If all requirements are met, VA determines eligibility for the Aid and Attendance benefit by adjusting for un-reimbursed medical expenses from the veteran's or surviving spouse's total household income. If the remaining income amount falls below the annual income threshold for the Aid and Attendance benefit, VA pays the difference between the claimant's household income and the Aid and Attendance threshold.

The Aid and Attendance income threshold for a veteran without dependents is now \$18,234 annually. The threshold increases to \$21,615 if a veteran has one dependent, and by \$1,866 for each additional dependent. The annual Aid and Attendance threshold for a surviving spouse alone is \$11,715. This threshold increases to \$13,976 if there is one dependent child and by \$1,866 for each additional child. Many elderly veterans and surviving spouses whose incomes are above the congressionally mandated legal limit for a VA pension may still be eligible for the special monthly Aid and Attendance benefit if they have large medical expenses, including nursing home expenses, for which they do not receive reimbursement.

- **Housebound Pension**

1-800-827-1000

www.va.gov

Applications may be submitted on-line at <http://vabenefits.vba.va.gov/vonapp/main.asp>.

Eligibility: The veteran has a single permanent disability evaluated as 100-percent disabling AND, due to such disability, he/she is permanently and substantially confined to his/her immediate premises, OR, The veteran has a single permanent disability evaluated as 100-percent disabling AND, another disability, or disabilities, evaluated as 60 percent or more disabling.

Income Requirements: Same as eligibility for the Aid and Attendance benefit.

Veterans Health Administration

<http://www1.va.gov/health/index.asp>

Eligibility for most veterans' health care benefits is based solely on active military service in the Army, Navy, Air Force, Marines, or Coast Guard (or Merchant Marines during WW II), and discharged under other than dishonorable conditions. Reservists and National Guard members who were called to active duty by a Federal Executive Order may qualify for VA health care benefits. Returning service members, including Reservists and National Guard members who served on active duty in a theater of combat operations have special eligibility for hospital care, medical services, and nursing home care for five years following discharge from active duty. Health Care eligibility is not just for those who served in combat. Other groups may be eligible for some health benefits. Veteran's health care is not just for service-connected injuries or medical conditions. Veteran's health care facilities are not just for men only. VA offers full-service health care to women veterans.

Services: VA provides a Medical Benefits Package, a standard enhanced health benefits plan available to all enrolled veterans. This plan emphasizes preventive and primary care, and offers a full range of outpatient and inpatient services within VA health care system. VA maintains an annual enrollment system to manage the provision of quality hospital and outpatient medical care and treatment to all enrolled veterans. A priority system ensures that veterans with service-connected disabilities and those below the low-income threshold are able to be enrolled in VA's health care system.
